《我是秦岭中的一滴水》

2023 年度宝鸡市环保公益宣传使者
“倡导生态环境保护”原创诗朗诵

宝鸡市经二路街道社区社会组织联合会 陈艳萍 & 宝鸡石油小学 郭萱

我是秦岭山林中的一滴水，
别的伙伴都奔向了嘉陵江，
我这是走到了哪里呢？

这里是姜水，
清姜河古名姜水，唱着远古的歌谣一路流淌而来。
这条河，从华夏龙脉的大秦岭中发源，
流过了铁马秋风的大散关，
流过了炎帝陵所在的常羊山脚下...

我走过的这一路看到的是，
许多的大型工业厂房，
密集的居住区，
熙熙攘攘的集贸市场；
但是丝毫没有弄脏我的衣衫。

是啊，你和小伙伴们的清澈，
凝结着宝鸡人的智慧和汗水，
承载着宝鸡人对美丽生态美好的祝福，
就这样我顺着清姜河一路行走四十多公里，
汇入关中的母亲河向东流去。

万户楼台临渭水，五陵花柳满秦川，
每一个宝鸡市民都能将生态环境保护落到生活中的方方面面，
低碳生活，保护绿水青山、共建美丽家园。

工业，农业，畜牧业沿河而建，渭河依然神采奕奕，
我就这样赏着美景，一路奔入黄河。

可是近些年，我们时而感觉寒风刺骨、时而感觉天如蒸笼，
一年四季只有夏和冬，少了春和秋，
没有了春风的温和，没有了秋风的习习。

是我们的地球生病了吗？
是的，我们的地球很怕热。科技在发展、社会在进步，
我们的生活越来越便捷，可随之而来的是地球的温度在上升。
为了人类赖以生存的地球家园不被冰川融化的雪水大面积的淹没，

我们每个人都应该积极行动起来，
一起拯救我们的地球。

这样，我们的地球就会早日康复了吧？

是的，这样我们的地球家园，就会生机勃勃。

我是秦岭中的一颗小水滴，

你是秦岭中的一颗小水滴，

我是一棵小树，

我是一捧泥沙，

我是一个孩子，

我是一名教师，

他是爷爷，

她是奶奶，

每一个人，都从身边的小事做起，

每一个单位，每一个集体，也都从点滴的小事做起，
节约一度电、节约一滴水，在生活当中多利用科学知识，
节约地球上有限的资源，为地球上的每一个生命的循环提供服务，

每一个星星点点，构建起了人类共同的生态文明。

每一个低碳行动，保护起了人类共同的地球家园，
让我们共同努力，保护环境，保护我们共同的家园。

全面推进美丽中国建设 加快推进人与自然和谐共生的现代化

——全国生态环境保护大会 习近平

今后 5 年是美丽中国建设的重要时期，要深入贯彻新时代中国特色社会主义思想，坚持以人民为中心，牢固树立和践行绿水青山就是金山银山的理念，把建设美丽中国摆在强国建设、民族复兴的突出位置，推动城乡人居环境明显改善、美丽中国建设取得显著成效，以高品质生态环境支撑高质量发展，加快推进人与自然和谐共生的现代化。

要持续深入打好污染防治攻坚战，坚持精准治污、科学治污、依法治污，保持力度、延伸深度、拓展广度，深入推进蓝天、碧水、净土三大保卫战，持续改善生态环境质量。要加快推动发展方式绿色低碳转型，坚持把绿色低碳发展作为解决生态环境问题的治本之策，加快形成绿色生产方式和生活方式，厚植高质量发展的绿色底色。要着力提升生态系统多样性、稳定性、持续性，加大生态系统保护力度，切实加强生态保护修复监管，拓宽绿水青山转化金山银山的路径，为子孙后代留下山清水秀的生态空间。要积极稳妥推进碳达峰碳中和，坚持全国统筹、节约优先、双轮驱动、内外畅通、防范风险的原则，落实好碳达峰碳中和政策体系，构建清洁低碳安全高效的能源体系，加快构建新型电力系统，提升国家油气安全保障能力。要守牢美丽中国建设安全底线，贯彻总体国家安全观，积极有效应对各种风险挑战，切实维护生态安全、核与辐射安全等，保障我们赖以生存发展的自然环境和条件不受威胁和破坏。

要健全美丽中国建设保障体系。统筹各领域资源，汇聚各方面力量，打好法治、市场、科技、政策“组合拳”。要强化法治保障，统筹推进生态环境、资源能源等领域相关法律制度修订，实施最严格的地上地下、陆海统筹、区域联动的生态环境治理制度，全面实行排污许可制，完善自然资源资产管理制度体系，健全国土空间用途管制制度。要完善绿色低碳发展经济政策，强化财政支持、税收政策支持、金融支持、价格政策支持。要推动有效市场和有为政府更好结合，将碳排放权、用能权、用水权、排污权等资源环境要素一体纳入要素市场化配置改革总盘子，支持出让、转让、抵押、入股等市场交易行为，加快构建环保信用监管体系，规范环境治理市场，促进环保产业和环境服务业健康发展。要加强科技支撑，推进绿色低碳科技自立自强，把应对气候变化、新污染物治理等作为国家基础研究和科技创新重点领域，狠抓关键核心技术攻关，实施生态环境科技创新重大行动，培养造就一支高水平生态环境科技人才队伍，深化人工智能等数字技术应用，构建美丽中国数字化治理体系，建设绿色智慧的数字生态文明。

The next five years will be an important period for the construction of a beautiful China. We must deeply implement the ideology of socialist ecological civilization with Chinese characteristics in the new era, adhere to the people as the center, firmly establish and practice the concept that green waters and green mountains are golden mountains and silver mountains, place the construction of a beautiful China in a prominent position in the construction of a strong country and the rejuvenation of the people, promote significant improvement of urban and rural living environments, and achieve significant results in the construction of a beautiful China, Supporting high-quality development with a high-quality ecological environment and accelerating the modernization of harmonious coexistence between humans and nature.

We need to continue to deepen the fight against pollution prevention and control, adhere to precise, scientific, and legal pollution control, maintain strength, extend depth, and expand breadth, deepen the three major defense battles of blue sky, clear water, and pure land, and continuously improve the quality of the ecological environment. We need to accelerate the green and low-carbon transformation of development methods, adhere to green and low-carbon development as the fundamental solution to ecological and environmental problems, accelerate the formation of green production methods and lifestyles, and lay a green foundation for high-quality development. Efforts should be made to enhance the diversity, stability, and sustainability of ecosystems, increase ecosystem protection efforts, effectively strengthen ecological protection and restoration supervision, broaden the path of transforming green waters and mountains into golden mountains and silver mountains, and leave a beautiful ecological space for future generations. We should actively and steadily promote carbon peaking and carbon neutrality, adhere to the principles of national coordination, prioritizing conservation, dual wheel drive, smooth internal and external flow, and risk prevention, implement a carbon peaking and carbon neutrality policy system, build a clean, low-carbon, safe, and efficient energy system, accelerate the construction of a new type of power system, and enhance the national oil and gas security guarantee capacity. We must firmly adhere to the security bottom line of building a beautiful China, implement the overall national security concept, actively and effectively respond to various risks and challenges, effectively maintain ecological security, nuclear and radiation safety, and ensure that the natural environment and conditions on which we rely for survival and development are not threatened or damaged.

We need to improve the guarantee system for building a beautiful China. Coordinate resources in various fields, gather forces from all aspects, and effectively combine the rule of law, market, technology, and policy. We need to strengthen the protection of the rule of law, comprehensively promote the revision of relevant laws in the fields of ecological environment, resources and energy, implement the strictest ecological environment governance system that integrates above ground, underground, land and sea, and regional linkage, comprehensively implement a pollution discharge permit system, improve the natural resource asset management system, and improve the control system for land and space use. We need to improve green and low-carbon economic policies, strengthen financial support, tax policy support, financial support, and price policy support. We need to promote a better combination of effective markets and promising governments, integrate resource and environmental factors such as carbon emission rights, energy rights, water rights, and pollution discharge rights into the overall framework of market-oriented allocation reform, support market trading behaviors such as transfer, mortgage, and equity participation, accelerate the construction of an environmental credit supervision system, standardize the environmental governance market, and promote the healthy development of the environmental protection industry and environmental service industry. We need to strengthen technological support, promote the self-reliance and self-improvement of green and low-carbon technologies, prioritize addressing climate change and new pollutant control as key areas of national basic research and technological innovation, focus on tackling key core technologies, implement major initiatives in ecological and environmental technology innovation, cultivate and cultivate a high-level team of ecological and environmental technology talents, deepen the application of digital technologies such as artificial intelligence, and build a beautiful digital governance system in China, Building a green and intelligent digital ecological civilization.

建设绿色低碳社区

共同践行双碳目标

陕西宝鸡城市社区绿色低碳示范项目

项目范畴 构建人人皆环保的绿色低碳社区文化

活动次数

共开展 68 场次
儿童活动 16 场次

参与/受益人次

总受益 5000 余人次
女性 4000 余人次 / 儿童 100 人次
/ 志愿者 500 余人次

投入资金 捐赠/配套

联合国开发计划署 (UNDP)
全球环境基金小额赠款计划 (GEF SGP)
项目赠款: 30 万余元;
新民路社区配套: 10 万余元;
渭工路社区配套: 10 万余元。

BASIC INFORMATION OF THE PROJECT

项目基本情况

党的十八大以来，我们把生态文明建设作为关系中华民族永续发展的根本大计，开展了一系列开创性工作，决心之大、力度之大、成效之大前所未有，生态文明建设从理论到实践都发生了历史性、转折性、全局性变化，美丽中国建设迈出重大步伐。我们从解决突出生态环境问题入手，注重点面结合、标本兼治，实现由重点整治到系统治理的重大转变；坚持转变观念、压实责任，不断增强全党全国推进生态文明建设的自觉性、主动性，实现由被动应对到主动作为的重大转变；紧跟时代、放眼世界，承担大国责任、展现大国担当，实现由全球环境治理参与者到引领者的重大转变；不断深化对生态文明建设规律的认识，形成新时代中国特色社会主义生态文明思想，实现由实践探索到科学理论指导的重大转变。经过顽强努力，我国天更蓝、地更绿、水更清，万里河山更加多姿多彩。新时代生态文明建设的成就举世瞩目，成为新时代党和国家事业取得历史性成就、发生历史性变革的显著标志。

习近平强调，我国生态环境保护结构性、根源性、趋势性压力尚未根本缓解。我国经济社会发展已进入加快绿色化、低碳化的高质量发展阶段，生态文明建设仍处于压力叠加、负重前行的关键期。必须以更高站位、更宽视野、更大力度来谋划和推进新征程生态环境保护工作，谱写新时代生态文明建设新篇章。

要深入学习贯彻党的二十大精神和习近平总书记重要讲话精神，以习近平新时代中国特色社会主义思想特别是习近平生态文明思想为指导，坚决扛起美丽中国建设的政治责任，加快推进人与自然和谐共生的现代化。要持之以恒打好污染防治攻坚战，推动生态环境质量持续改善；把绿色低碳发展作为治本之策，加快形成节约资源和保护环境的空间格局、产业结构、生产方式、生活方式；坚持人与自然和谐共生，加大生态保护和修复力度，完善生态保护修复监管制度；瞄准既定目标积极稳妥推进碳达峰碳中和，坚持先立后破，扎实推进能源绿色低碳转型；强化底线思维，常态化管控生态环境风险，筑牢美丽中国建设的生态安全根基；保持严谨的基调，深入开展生态环境保护督察和执法监管，严厉打击生态环境违法行为。各地区、各部门、各单位要加强组织领导，严格落实责任，强化支撑保障，确保党中央决策部署落到实处、见到实效。

Since the 18th National Congress of the Communist Party of China, we have regarded the construction of ecological civilization as a fundamental plan related to the sustainable development of the Chinese nation. We have carried out a series of pioneering work, with unprecedented determination, intensity, and effectiveness. The construction of ecological civilization has undergone historic, transitional, and global changes from theory to practice, and has taken significant steps towards building a beautiful China. We start by addressing prominent ecological and environmental issues, emphasizing the combination of points and areas, addressing both symptoms and root causes, and achieving a significant transformation from key remediation to systematic governance; Adhere to the transformation of concepts, consolidate responsibilities, continuously enhance the consciousness and initiative of the entire Party and the whole country to promote ecological civilization construction, and achieve a significant transformation from passive response to proactive action; Keeping up with the times, looking at the world, assuming great country responsibilities, demonstrating great country responsibilities, and achieving a significant transformation from a participant in global environmental governance to a leader; Continuously deepen our understanding of the laws of ecological civilization construction, form the socialist ecological civilization ideology with Chinese characteristics in the new era, and achieve a significant transformation from practical exploration to scientific theoretical guidance. After persistent efforts, China's sky has become bluer, the ground greener, the water clearer, and the rivers and mountains thousands of miles more colorful. The achievements of ecological civilization construction in the new era have attracted worldwide attention, becoming a significant symbol of historic achievements and changes in the cause of the Party and the country in the new era.

China's economic and social development has entered a high-quality stage of accelerating green and low-carbon development, and the construction of ecological civilization is still in a critical period of pressure accumulation and heavy burden. We must plan and promote the ecological and environmental protection work of the new journey with a higher position, broader vision, and greater efforts, and write a new chapter in the construction of ecological civilization in the new era.

We must persistently fight the battle against pollution and promote the continuous improvement of ecological environment quality; Take green and low-carbon development as the fundamental solution, accelerate the formation of a spatial pattern, industrial structure, production methods, and lifestyle that saves resources and protects the environment; Adhere to the harmonious coexistence between humans and nature, increase efforts in ecological protection and restoration, and improve the regulatory system for ecological protection and restoration; Aiming at established goals, actively and steadily promoting carbon peak and carbon neutrality, adhering to the principle of first establishing and then breaking through, and solidly promoting the green and low-carbon transformation of energy; Strengthening bottom line thinking, normalizing the control of ecological and environmental risks, and building a solid ecological security foundation for the construction of a beautiful China; Maintain a rigorous tone, conduct in-depth ecological and environmental protection inspections and law enforcement supervision, and severely crack down on illegal activities in the ecological environment. All regions, departments, and units should strengthen organizational leadership, strictly implement responsibilities, strengthen support and guarantee, and ensure that the decisions and deployments of the Party Central Committee are implemented and effective.

碳“惠”渭滨

SHAANXI BAOJI URBAN COMMUNITY GREEN AND LOW CARBON DEMONSTRATION PROJECT

陕西宝鸡城市社区绿色低碳示范项目

——让“碳达峰、碳中和”与我们不再遥远

气候变化、环境污染和生物多样性危机是当今人类社会面临三大危机，近年来中国政府不仅积极应对气候变化，也积极参与联合国框架下的气候变化谈判。在第七十五届联合国大会一般性辩论上的讲话中提出，中国提出了二氧化碳排放力争于 2030 年前达到峰值，努力争取 2060 年前实现碳中和。这是中国首次提出碳中和目标，引起国内外广泛关注。

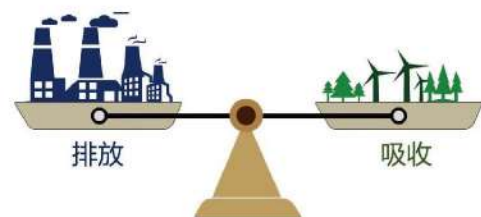

什么是“碳达峰”？

广义来说，碳达峰是指某一个时点，二氧化碳的排放不再增长达到峰值，之后逐步回落。根据世界资源研究所的介绍，碳达峰是一个过程，即碳排放首先进入平台期并可以在一定范围内波动，之后进入平稳下降阶段。

碳达峰是实现碳中和的前提条件，尽早地实现碳达峰可促进碳中和的早日实现。据此，结合我国的承诺的时间节点：1) 从现在至 2030 年，我国的碳排放仍将处于一个爬坡期；2) 2030-2060 年这 20 年间，碳排放要渡过平台期并最终完成减排任务。

什么是“碳中和”？

碳中和是指企业、团体或个人测算在一定时间内直接或间接产生的温室气体排放总量，然后通过植树造林、节能减排等形式，抵消自身产生的二氧化碳排放量，实现二氧化碳“零排放”。

碳中和是指在一定时间内产生的温室气体排放总量。

“碳达峰、碳中和”与我们有什么关系？

随着各国二氧化碳排放，温室气体猛增，由于全球变暖和温室效应，许多冰川正在融化，导致海平面上升，造成气候的异常增多，全球变暖，对生命系统形成威胁。

碳中和目标的实现和我们每个个体都息息相关。及时关电脑、出门骑单车、自备购物袋、种一棵树……我们每个人都可以在日常生活中留意，也许随手做的一件小事，就能为碳中和和碳减排贡献自己的力量。爱护地球是我们每个人的责任。

“陕西宝鸡城市社区绿色低碳示范项目”是什么？

本项目是联合国开发计划署 (UNDP) 全球环境基金小额赠款计划 (GEF SGP) 资助，与陕西普辉青年社会发展中心、宝鸡市渭滨区经二路街道合作，在辖区社区建立城市绿色低碳社区示范点，通过参与、体验及公共教育的模式，以提升受益群体绿色低碳的意识，促进其行为改变，从日常生活小事做起，节约用水、垃圾分类、低碳出行、空调调温……成为一名真正为“碳达峰、碳中和”目标实现而做出贡献的低碳公民。

为了使项目达到预期的效果，并符合项目的要求，陕西普辉项目主要负责人于 10 月份前往北京『联合国开发计划署北京办公室』，参与了“联合国开发计划署全球环境基金小额赠款中国项目启动会暨 NGO 能力建设培训会”，与兄弟机构一起学习了项目管理、财务管理以及项目创意及专业性的知识等内容。

陕西普辉项目人员在“北京首个碳中和主题公园”美美的体验、用心的感受，期望通过学习带来更多启发，将绿色理念带回家。

如何让“碳达峰、碳中和”听起来好像非常“高大上和遥远”的话题，落地西北、落地宝鸡渭滨、落地经二路街道，是我们需要“好好学习 天天向上”，认真学习、努力探索的新而又迫切的“碳领域”。

带着学习与思考，带着目标与盼望，带着用心与行动…

我们努力，让绿色低碳示范项目落地、生根、发芽、开花，并结出丰硕的果实。

This project is funded by the Global Environment Facility Small Grants Program (GEF SGP) of the United Nations Development Programme (UNDP), in collaboration with Shaanxi Puhui Youth and Social Development Center and Jinger Road Street, Weibin District, Baoji City, to establish urban green and low-carbon community demonstration points in the community under its jurisdiction. Through participation, experience, and public education, it aims to enhance the awareness of green and low-carbon among the beneficiaries, promote their behavior change, and start from small daily life matters, Water conservation, garbage sorting, low-carbon travel, air conditioning temperature regulation Become a low-carbon citizen who truly contributes to achieving the goals of peaking carbon emissions and achieving carbon neutrality.

In order to achieve the expected results and meet the requirements of the project, the main person in charge of Shaanxi Puhui project went to the United Nations Development Programme Beijing Office in October to participate in the launch meeting of the United Nations Development Programme Global Environment Facility Small Grants China Project and NGO Capacity Building Training Meeting. Together with sister institutions, they learned about project management, financial management, project creativity, and professional knowledge.

The Shaanxi Puhui project personnel had a beautiful experience and heartfelt feeling at the "Beijing's First Carbon Neutrality Theme Park", hoping to bring more inspiration through learning and bring green concepts home.

How to make "carbon peak and carbon neutrality" sound like a very "lofty and distant" topic, landing in the northwest, Baoji Weibin, and Jinger Road Street, is a new and urgent "carbon field" that we need to "study hard and strive to explore every day."

With learning and thinking, with goals and hope, with heart and action

We strive to ensure that green and low-carbon demonstration projects land, take root, sprout, bloom, and bear fruitful fruits.

碳“惠”渭滨

OVERVIEW OF THE PROJECT SITE

项目点概况

宝鸡市，古称陈仓，地处关中平原西部，陕西省辖地级市。宝鸡市渭滨区经二路街道辖区面积 2.8 平方公里，常住人口 7.6 万人，是全市经济、文化、商贸中心。

近年来，街道按照党建引领、平台支撑、项目驱动、治理有效的工作思路，发展培育各类社区社会组织 112 个，实施为民服务项目 213 个，其中已注册的专业社会组织 4 个，打造了一批具有示范和引领作用的服务群众项目，切实提升了群众的幸福指数和获得感。经二路街道党工委、办事处于 2017 年率先引入第三方专业社会组织，成立了陕西首家街道层面的社区社会组织联合会，并于 2018 年成立了联合会党支部。

新民路社区，渭滨区经二路街道下辖社区，地处宝鸡市商业闹区，常住人口约 1.5 万人，属的板块型社区。先后获得了全国文化先进社区、全国计生协会先进集体、全国商业示范社区、全国科普益民计划先进集体、全国优秀基层妇联组织等荣誉称号。在宝鸡率先引入“义仓义集·一勺米”活动，帮助困难人群及家庭方面做出了突出贡献，并荣获宝鸡市新时代文明实践站，及省级优秀志愿服务项目，并得到了辖区居民的高度赞赏。

渭工路社区占地面积 0.24 平方公里，隶属渭滨区经二路街道办事处，属板块型社区。常住人口约 1.3 万人。社区打造的“一主两微四庭院”，即：一个红色文化主街区；两处党群微阵地；四色家园：红色党建家园、绿色环保家园、蓝色法治家园、紫色自治家园，使服务群众更加精准化、专业化。特色街区和小院多次被宝鸡日报宣传报道。2021 年社区率先在省内注册成立“我帮你”院落服务合作社，向居民提供非盈利性准物业服务，让三无小区彻底脱离“无人管”的标签，治理模式相继被《陕西日报》《社区》杂志等多家媒体宣传推广。

Baoji City, formerly known as Chencang, is located in the western part of the Guanzhong Plain and is a prefecture level city under the jurisdiction of Shaanxi Province. The jurisdiction area of Jing'er Road Street in Weibin District, Baoji City is 2.8 square kilometers, with a permanent population of 76000 people. It is the economic, cultural, and commercial center of the city.

In recent years, the street has developed and cultivated 98 community social organizations of various types, implemented 213 service projects for the people, including 4 registered professional social organizations, and created a number of exemplary and leading service projects for the people, in accordance with the work ideas of party building guidance, platform support, project driving, and effective governance. This has effectively improved the happiness index and sense of gain of the people. In 2017, the Party Working Committee and Office of Jing'er Road Street took the lead in introducing third-party professional social organizations and established the first community social organization federation at the street level in Shaanxi. In 2018, the party branch of the federation was established.

Xinmin Road Community, a community under the jurisdiction of Jing'er Road Street in Weibin District, is located in the commercial district of Baoji City, with a permanent population of about 15000 people. It is a block type community. We have successively received honorary titles such as National Cultural Advanced Community, National Family Planning Association Advanced Collective, National Commercial Demonstration Community, National Science Popularization and Benefiting the People Advanced Collective, and National Excellent Grassroots Women's Federation Organization. Taking the lead in introducing the "Yicang Yiji - One Spoon of Rice" activity in Baoji, we have made outstanding contributions to helping disadvantaged groups and families. We have been awarded the Baoji New Era Civilization Practice Station and the provincial excellent volunteer service project, and have received high praise from residents in our jurisdiction.

The Weigong Road Community covers an area of 0.24 square kilometers and is under the jurisdiction of the Jing'er Road Sub district Office in Weibin District, belonging to a block type community. The permanent population is about 13000 people. The "one main, two micro, and four courtyards" created by the community, namely: a red cultural main block; Two party and mass micro positions; Four color homesteads: red party building homestead, green environmental protection homestead, blue legal homestead, and purple autonomous homestead, making service to the masses more precise and professional. Featured neighborhoods and small courtyards have been repeatedly promoted and reported by Baoji Daily. In 2021, the community took the lead in registering and establishing the "I Help You" courtyard service cooperative in the province, providing non-profit quasi property services to residents, completely breaking away from the label of "unmanned" in the Sanwu community. The governance model has been promoted and promoted by multiple media outlets such as Shaanxi Daily and Community magazine.

GREEN AND LOW-CARBON COMMUNITY CONSTRUCTION SECTION

绿色低碳社区 建设篇

为了“构建绿色低碳社区·倡导人人参与环保”，2022年经二路街道指导与陕西普辉青年社会发展中心、宝鸡市经二路街道社区社会组织联合通力合作，在社区闹市区“新民街巷”建成了陕西首个“碳中和小屋”居民绿色环保教育试点基地。同时，以绿色低碳环保为主题组织开展多期绿色低碳社区教育的活动，藉此来呼吁更多居民做“美丽中国、美丽社区、美好环境”的行动者。

为了贡献“双碳目标”的实现，在联合国开发计划署（UNDP）全球环境基金小额赠款计划（GEF SGP）的支持下，陕西普辉与经二路街道通力合作，期望通过近2年的时间，通过探索和参与式的工作手法，与当地居民共同努力，为项目社区开启绿色低碳的正确打开方式。

In order to "build a green and low-carbon community and advocate for everyone to participate in environmental protection", in 2022, Jing'er Road Street guided and cooperated with Shaanxi Puhui Youth Social Development Center and Jing'er Road Street Community Social Organizations in Baoji City to build Shaanxi's first "carbon neutral cabin" residential green environmental education pilot base in the bustling urban area of Xinmin Street and Lane. At the same time, with the theme of green, low-carbon and environmental protection, we organize multiple sessions of green and low-carbon community education activities to call on more residents to become actors of "Beautiful China, Beautiful Community, and Beautiful Environment".

In order to contribute to the achievement of the "dual carbon goals", with the support of the United Nations Development Programme (UNDP) Global Environment Facility Small Grants Program (GEF SGP), Shaanxi Puhui and Jing'er Road Street are working together, hoping to explore and participate in work methods with local residents over the past two years, and work together to open up the correct way for the project community to achieve green and low-carbon development.

光伏车棚发电站
社区绿色益站

碳中和小屋
社区绿色益站

“双碳目标”需要下沉社区，“双碳目标”需要人人参与。2022年本项目在渭工路社区建成了陕西首家“社区绿色低碳光伏车棚发电站”，不仅解决老旧小区飞线充电安全隐患的问题，更为社区居民提供光伏生态保护示范，同时依托此平台，为居民开展生态环保公共教育等倡导活动，使“双碳目标”成为我们共同的目标。

The 'dual carbon goal' requires sinking communities, and the 'dual carbon goal' requires everyone's participation. In 2022, this project built the first "Community Green and Low Carbon Photovoltaic Vehicle Shed Power Station" in Shaanxi Province in Weigonglu Community, which not only solves the safety hazards of old residential areas' flying line charging, but also provides photovoltaic ecological protection demonstration for community residents. At the same time, relying on this platform, we carry out ecological and environmental protection public education and other advocacy activities for residents, making the "dual carbon goal" our common goal.

GREEN AND LOW-CARBON COMMUNITY EDUCATION

绿色低碳社区教育篇

经二路街道

本项目基于“双碳目标”背景下融合社区治理理念，致力于探索中国中西部城市社区绿色低碳建设经验，通过持续的社区教育宣传活动提升社区居民、政府等相关群体对绿色低碳理念认知及参与度，促进项目的可持续性和可复制性，增强社区居民对绿色低碳的直观感受和深度认知，倡导更多居民家庭参与绿色低碳行动。通过培育社区环保志愿者团队并赋能赋权，并鼓励社区女性、困境等边缘人群的参与，大力推动和倡导社区人人环保行为的改变。

联动宝鸡市生态环境保护部门、社区、社会组织、新闻媒体、辖区群众共同参与，以多元的形式开展生态环保公共教育活动。

This project is based on the integration of community governance concepts in the context of the "dual carbon goals", and is committed to exploring the experience of green and low-carbon construction in urban communities in central and western China. Through continuous community education and publicity activities, it aims to enhance the awareness and participation of community residents, governments, and other relevant groups in the concept of green and low-carbon, promote the sustainability and replicability of the project, and enhance the intuitive and deep understanding of green and low-carbon among community residents. Advocate for more households to participate in green and low-carbon actions. By cultivating and empowering community environmental volunteer teams, and encouraging the participation of marginalized groups such as women and disadvantaged individuals in the community, we vigorously promote and advocate for changes in environmental behavior among everyone in the community.

Collaborate with the ecological and environmental protection departments, communities, social organizations, news media, and residents in Baoji City to jointly participate in various forms of ecological and environmental public education activities.

低碳出行 减碳排量

“请问您外出一般会选择哪种出行方式？”、“您家一年当中哪几个月用水量和用气量比较高？分别用量是多少？正常月份分别用量大概多少？”、“天气炎热时家庭大多要开空调，请问您知道国家提倡的夏季空调温度是多少吗？”……

"May I ask which mode of transportation do you usually choose when going out?", "Which months of the year do you use more water and gas in your home? What are the respective usage amounts? What is the approximate usage amount in normal months?", "When the weather is hot, most households need to turn on air conditioning. Do you know the summer air conditioning temperature advocated by the country?"

基线调研了解社区碳数据

中国在联合国会议宣布了“碳达峰、碳中和”目标时，“双碳”目标已成为我国坚定的发展方向之一。而“双碳”目标不仅是一个口号，更是一个倡导和需要每个公民从生活的点点滴滴付诸的行动。

绿色低碳环保行动的志愿者们在做好疫情防控的情况下，开始了入户访谈基线调研碳数据的收集。

When China announced the goal of "carbon peaking and carbon neutrality" at the United Nations General Assembly, the "dual carbon" goal has become one of China's firm development directions. The "dual carbon" goal is not only a slogan, but also an action that advocates and requires every citizen to put every bit of their life into action.

The volunteers of the Green, Low Carbon, and Environmental Protection Action started collecting baseline carbon data for household interviews while doing a good job in epidemic prevention and control.

让社区减碳降碳行动记个“明白账”

在项目活动实施前，陕西普辉联合经二路街道新民路社区、渭工路社区的志愿者展开了入户调研工作，进行项目点社区目前居民的碳数据大盘点，使项目真正做到“心中有数”。

Prior to the implementation of the project activities, Shaanxi Puhui collaborated with volunteers from Xinmin Road Community and Weigong Road Community in Jing'er Road Street to conduct household research on the carbon data of the current residents in the project site community, ensuring that the project truly has a clear understanding.

看经二路街道如何玩转低碳环保

六五环境日和 2022 年全国低碳日来临之际，渭滨区经二路街道城市绿色低碳社区示范项目启动会暨倡导低碳出行自行车骑行活动在新民路社区举行，区常委、副区长王亚勤参加活动，此次活动以“建设绿色环保社区，践行‘双碳’战略目标”为主题，倡导保护环境从社区做起，从家庭做起，从每一个人做起。

经二路街道领导向大家介绍了项目的整体情况，并表示经二路街道将着力推动“碳达峰、碳中和”目标下的项目开展，使经二路街道成为“践行双碳目标”的排头兵，为城市绿色低碳社区累积成熟的经验和做法。

陕西普辉青年社会发展中心、宝鸡经二路街道社区社会组织联合会充分调动新民路社区社会组织团队、辖区居民利用废旧编织袋、塑料袋、报纸、纸杯、玉米皮编制的一件件晚礼服、公主装和草裙，在观众的喝彩声中一一登上舞台，让现场的社区居民惊叹不已。

渭工路社区志愿服务队的队员们身穿“红、绿、蓝、灰”不同颜色的废旧物品制作的环创衣服，以“垃圾分类”为设计原型，化身垃圾桶家族中的一员，为观众带来一段《垃圾分类》自创舞蹈表演，用拟人化的语言告诉大家四类垃圾如何进行投放，倡导大家积极参与到爱护环境的行动中，让我们居住的城市变得更加整洁美丽。

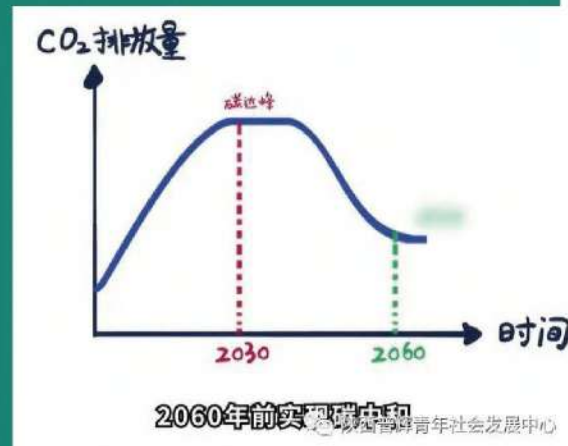

On the occasion of the June 5th Environmental Day and the 2022 National Low Carbon Day, the Weibin District Jing'er Road Street Urban Green and Low Carbon Community Demonstration Project Launch Meeting and Advocacy for Low Carbon Cycling Activities were held in the Xinmin Road Community. Wang Yaquin, a member of the District Standing Committee and Deputy District Mayor, participated in the event. The theme of the event was "building a green and environmentally friendly community, practicing the 'dual carbon' strategic goal", advocating for environmental protection starting from the community and starting from the family, Start with everyone.

The leaders of Jing'er Road Street introduced the overall situation of the project to everyone and stated that Jing'er Road Street will focus on promoting the implementation of projects under the goal of "carbon peaking and carbon neutrality", making Jing'er Road Street a leader in implementing the "dual carbon goals" and accumulating mature experience and practices for urban green and low-carbon communities.

Shaanxi Puhui Youth Social Development Center and Baoji Jing'er Road Street Community Social Organization Federation fully mobilized the Xinmin Road community social organization team and residents in the jurisdiction to use waste woven bags, plastic bags, newspapers, paper cups, corn husks to weave evening gowns, princess costumes, and grass skirts, one by one, to stage in the applause of the audience, leaving the community residents on site amazed.

The members of the Weigong Road Community Volunteer Service Team wear environmentally friendly clothing made of waste items in different colors such as "red, green, blue, and gray". Using "garbage classification" as the design prototype, they transform into members of the garbage bin family and bring a self created dance performance of "garbage classification" to the audience. They use personified language to tell everyone how to dispose of the four types of garbage and advocate for everyone to actively participate in the action of caring for the environment, Make the city we live in cleaner and more beautiful.

参加自行车快乐骑行体验活动的市民看着绿树成荫、鸟语花香的沿途美景，感慨万分：“宝鸡这几年环境变美了，干净卫生了，我们也敢放心地骑车出行，这是政府为老百姓做的大实事。”他们不住地掏出手机，拍下一路美景，表示要记录下这份美，以感染身边人带动身边人共同保护环境，为低碳生活尽责。

市环保宣教信息中心主任张永宁与会介绍了我市全面落实“美丽中国，我是行动者”提升公民生态文明意识所开展的系列环保宣传活动。她说，活动开展以来，社会各界积极响应，政府、企业、社区、社会组织和公众等踊跃参与，展现了全民共建美丽中国的生动场景。渭滨区经二路在全市社区减排、降排等绿色低碳示范活动中发挥了带头作用，为社会各界参与生态文明建设提供了榜样示范和价值引领。

“陕西宝鸡市绿色低碳社区示范项目”由联合国开发计划署 (UNDP) 全球环境基金小额赠款计划 (GEF SGP) 资助，陕西普辉青年社会发展中心具体落实，在宝鸡市经二路街道开展了一系列的绿色低碳环保活动。

项目以新民路社区和渭工路社区为试点，建设“社区活动中心光伏电站”“碳中和小屋”及“绿色益站”等居民参与式学习和体验节能减排的社区活动基地，通过绿色低碳课堂、公益创投项目培养居民的绿色发展意识，培育绿色社区文化，打造环保惠民新亮点，探索实现“碳达峰、碳中和”目标的经验，努力走出一条生态优先、绿色发展的社区治理新路子。

继启动活动之后，我们将继续联合各相关部门、社区社会组织、志愿者，多开展绿色低碳环保活动，将“人人参与环保、人人都是低碳环保的行动者……”的理念继续下沉社区，广而告之，助力国家双碳目标的达成。

The citizens who participated in the Happy Cycling Experience Activity looked at the beautiful scenery along the way, with the shade of green trees and the fragrance of birds and flowers. They were deeply moved and said, "In recent years, the environment in Baoji has become beautiful, clean and hygienic, and we dare to ride bicycles with peace of mind. This is a great thing that the government has done for the people." They kept taking out their phones and taking pictures of the beautiful scenery, expressing their intention to record this beauty and inspire those around us to protect the environment together, Take responsibility for low-carbon living.

Zhang Yongning, Director of the Municipal Environmental Protection Education Information Center, attended the meeting to introduce a series of environmental protection publicity activities carried out by our city to comprehensively implement the concept of "Beautiful China, I am an Actor" and enhance citizens' awareness of ecological civilization. She said that since the launch of the event, various sectors of society have actively responded, with the government, enterprises, communities, social organizations, and the public actively participating, showcasing a vivid scene of the people working together to build a beautiful China. Jing'er Road in Weibin District has played a leading role in green and low-carbon demonstration activities such as community emission reduction and reduction, providing a model and value guidance for all sectors of society to participate in ecological civilization construction.

The "Green and Low Carbon Community Demonstration Project in Baoji City, Shaanxi Province" is funded by the United Nations Development Programme (UNDP) Global Environment Facility Small Grants Program (GEF SGP). The Shaanxi Puhui Youth and Social Development Center has implemented a series of green and low-carbon environmental protection activities in Jinger Road Street, Baoji City.

The project takes Xinmin Road Community and Weigong Road Community as pilot sites to build community activity bases for residents to participate in learning and experience energy conservation and emission reduction, such as "Community Activity Center Photovoltaic Power Station," "Carbon Neutrality Cabin," and "Green Benefit Station." Through green and low-carbon classrooms and public welfare venture capital projects, the project cultivates residents' awareness of green development, cultivates green community culture, creates new highlights of environmental protection and benefits to the people, and explores the experience of achieving the goals of "carbon peak and carbon neutrality.", Strive to find a new path of community governance that prioritizes ecology and promotes green development.

After launching the event, we will continue to collaborate with relevant departments, community social organizations, and volunteers to carry out more green and low-carbon environmental protection activities. We will continue to spread the concept of "everyone participating in environmental protection, everyone being a low-carbon environmental protection actor..." to the community, promote it widely, and help achieve the national dual carbon goals.

动人以行者，其感必速——社区绿色志愿组织培育

为进一步普及低碳环保理念，倡导绿色低碳出行，加快转变居民绿色生活习惯。将绿色、低碳、环保、创新、智慧、人文融入进社区治理中。陕西普辉青年社会发展中心联合宝鸡经二路街道社区社会组织联合会、绿色环保志愿者团队核心成员及志愿者，以户外回归自然、互动体验的形式，开展了社区社会组织培育活动，加深了社区伙伴们对环保、绿色低碳的理解、体验与认知。

远离城市的喧嚣，走入田间。伙伴们都感觉到久违的自然气息，纷纷表示自己所生活的的环境正是缺少这些绿色。这些鲜明的对比都将成为今后坚持低碳生活方式，宣传低碳生活，践行绿色低碳理念的重要支柱。

学习环保知识，培育社区社会组织，带领社区社会组织一起探索，让更多的市民关心、关注并参与到低碳环保中来。活动以绿色低碳健步行、环保知识问答、自创套圈游戏等形式，期望为环保公益小伙伴们在社区组织居民参与环保活动方面带来更多思考，催化环保活动有“举一反三、抛砖引玉”之效果，使宝鸡经二路各社区的环保活动遍地开花、硕果累累。

“碳达峰、碳中和”双碳目标离我们并不遥远，因为这是关乎人类可持续生计的大事，我们需要更多组织和团队的加入，用专业的理念和工作手法，一起推动绿色低碳融入居民的生活。

To further popularize the concept of low-carbon environmental protection, advocate green and low-carbon travel, and accelerate the transformation of residents' green living habits. Integrating green, low-carbon, environmental protection, innovation, wisdom, and humanities into community governance. Shaanxi Puhui Youth Social Development Center, in collaboration with the Baoji Jing'er Road Street Community Social Organization Federation, core members of the green environmental protection volunteer team, and volunteers, carried out community social organization cultivation activities in the form of outdoor return to nature and interactive experience, deepening the understanding, experience, and cognition of environmental protection and green low-carbon among community partners.

Stay away from the hustle and bustle of the city and enter the fields. The partners all felt the long lost natural atmosphere and expressed that the environment they lived in lacked these green elements. These sharp contrasts will become important pillars for adhering to low-carbon lifestyles, promoting low-carbon lifestyles, and practicing green and low-carbon concepts in the future.

Learn environmental protection knowledge, cultivate community social organizations, lead community social organizations to explore together, and encourage more citizens to care, pay attention to, and participate in low-carbon environmental protection. The event takes the form of green and low-carbon walking, environmental knowledge Q&A, and self created loop games, hoping to bring more thinking to environmental welfare partners in organizing residents to participate in environmental activities in the community. It promotes the effect of "drawing inferences from one example, throwing bricks to attract jade" in environmental activities, and makes environmental activities in various communities of Baoji Jing'er Road bloom everywhere and achieve fruitful results.

The goal of reaching carbon peak and achieving carbon neutrality and dual carbon emissions is not far from us, as it is a major issue related to sustainable human livelihoods. We need more organizations and teams to join us, using professional concepts and work methods to promote the integration of green and low-carbon into residents' lives.

小记者跑街——低碳项目效果回访

2022 年底，由联合国开发计划署 (UNDP) 全球环境基金小额赠款计划 (GEF SGP) 支持的经二路街道光伏车棚发电站与碳中和小屋建设完工已有数月，2 月初，环保志愿小记者们行动起来了，对居民使用效果进行了采访，并为我们提供了很多可参考的意见和建议！

在对渭工路光伏车棚发电站的采访中，当地居民对我们的采访交流给予积极地配合，并各自给出了相应的反馈。居民对项目情况总体较了解，电站充电及休闲体验设施使用频次高，很大程度降低了院落电车飞线充电安全的隐患，并且充电费用低，对其满意程度较高，也愿意在家庭践行绿色低碳的生活方式，为社区绿色发展作出改变。很多居民希望社区可以多开展一些绿色低碳环保活动，从口号到行动，一起做“绿色”达人！

经二路街道碳中和小屋现已成为新民街巷的一个亮点，是集居民低碳学习和体验、休息锻炼、手机充电等为一体的开放空间，志愿小分队对进入碳中和小屋的一些群众和周边商户进行了采访交流，其中小朋友更加踊跃，大家觉得小屋外形美观、舒适有趣、环保便利，尤其是外卖小哥和吃饭逛街的行人，更是为他们解决了休息与手机充电的困扰，同时周边居民也纷纷表示愿意参与到社区组织的绿色低碳志愿服务中来。

综合几天项目走访调研，都得到了社区居民的积极认可，为居民的日常生活带来了绿色生机，此前新民路社区和渭工路社区开展的居民绿色课堂也得到了积极地反馈，大朋友和小朋友们都有了不少的收获，并希望此类社区活动能长期开展，将绿色的发展理念贯彻到底。

调研志愿者：大学生志愿者：魏子怡 / 王正升 / 李宣颖

宝鸡市高新中学：杜沛县 宝鸡市第一中学：王正宇

At the end of 2022, the construction of the Jing'er Road Street Photovoltaic Shed Power Station and Carbon Neutrality Hut, supported by the Global Environment Facility Small Grants Program (GEF SGP) of the United Nations Development Programme (UNDP), had been completed for several months. In early February, environmental volunteer journalists took action and conducted interviews on the effectiveness of residents' use, providing us with many reference opinions and suggestions!

In the interview with the Weigong Road Photovoltaic Vehicle Shed Power Station, local residents actively cooperated with our interview communication and provided corresponding feedback. Residents generally have a good understanding of the project situation. The frequent use of charging and leisure experience facilities in the power station has greatly reduced the safety hazards of electric vehicle flying line charging in the courtyard. The charging cost is low, and they are satisfied with it. They are also willing to practice a green and low-carbon lifestyle in their homes, making changes to the green development of the community. Many residents hope that the community can carry out more green, low-carbon and environmental protection activities, from slogans to actions, to become "green" experts together!

The Carbon Neutrality Hut in Jing'er Road Street has become a highlight of Xinmin Street. It is an open space that integrates residents' low-carbon learning and experience, rest and exercise, mobile phone charging, etc. The volunteer team conducted interviews and exchanges with some residents and surrounding merchants who entered the Carbon Neutrality Hut. The children were even more enthusiastic, and they found the cabin to be beautiful, comfortable, interesting, environmentally friendly, and convenient, especially for delivery guys and pedestrians who eat and go shopping, It has also solved the problem of rest and phone charging for them, and nearby residents have expressed their willingness to participate in green and low-carbon volunteer services organized by community organizations.

After several days of project visits and research, the community residents have received positive recognition, bringing green vitality to their daily lives. The green classrooms for residents in Xinmin Road and Weigong Road communities have also received positive feedback, and both adults and children have gained a lot. We hope that such community activities can be carried out in the long term and implement the concept of green development to the end.

『碳索』社区的可持续发展

2020年9月22日，中国在第75届联合国大会上正式提出2030年实现“碳达峰”、2060年实现“碳中和”。为响应和践行国家双碳目标，陕西普辉青年社会发展中心得到了联合国开发计划署（UNDP）全球环境基金小额赠款计划（GEF SGP）的支持，在宝鸡市经二路街道率先尝试绿色低碳社区项目的推动和落实。

2022年12月，项目在经二路街道建设“碳中和小屋”，在渭工路社区建设“光伏车棚发电站”。并在社区孵化培育绿色低碳环保志愿组织，充分调动居民参与到社区绿色服务活动中。

On September 22, 2020, China officially proposed at the 75th United Nations General Assembly to achieve "carbon peak" by 2030 and "carbon neutrality" by 2060. In response to and in practice of the national dual carbon goals, Shaanxi Puhui Youth and Social Development Center has received support from the United Nations Development Programme (UNDP) Global Environment Facility Small Grants Program (GEF SGP) and has taken the lead in promoting and implementing green and low-carbon community projects in Jing'er Road Street, Baoji City.

In December 2022, the project will construct a "carbon neutral cabin" in Jing'er Road Street and a "photovoltaic shed power station" in Weigong Road Community. And incubate and cultivate green, low-carbon, and environmentally friendly volunteer organizations in the community, fully mobilizing residents to participate in community green service activities.

专家座谈共“碳”未来

2023年3月，联合国环境署前官员蒋南青博士（蒋南青博士现任青合循环经济与碳中和研究院院长。曾担任中国合成树脂协会塑料循环再生专委会秘书长，参与过世界银行，亚洲开发银行，欧盟，WWF，联合国儿基会 - 联合国开发计划署等多个塑料项目的顾问。她专注于企业 ESG 与消费端循环经济和碳减排挂钩的工作。开展循环数字化平台工作，制定系列碳普惠行为碳减排标准，带动公众减排）受邀到宝鸡经二路街道，与街办领导、项目团队就绿色低碳社区、街道探索碳阻迹等工作方向与发展策略进行了座谈与研讨。

In March 23, Dr. Jiang Nanqing, a former official of the United Nations Environment Programme, was appointed president of the Qinghe Institute for Circular Economy and Carbon Neutrality. He has served as the Secretary-General of the Plastic Recycling Committee of the China Synthetic Resin Association, and has participated in many plastic projects of the World Bank, Development Bank, European Union, WWF, UNICEF - United Nations Development Program and other consultants. She focuses on the link between corporate ESG and consumer circular economy and carbon reduction. Carry out the work of circular digital platform, To formulate a series of carbon inclusive behavior carbon emission reduction standards, and drive public emission reduction) was invited to Baoji Jinglu Street, and had a discussion and discussion with the leaders of the street office and the project team on the work direction and development strategy of green low-carbon community and street carbon mixing.

新民街巷

蒋南青博士到经二路街道第一站，就来到了新民街巷的“碳中和小屋”，看到小屋里的布置，听街办领导和社区人员对于过去一年多我们开展的社区绿色环保活动，她不禁感慨：“小屋虽小但五脏俱全，关键是能实现带动居民参与的功能非常好……”

Dr. Jiang Nanqing arrived at the first stop of Jing'er Road Street and arrived at the "Carbon Neutrality Cabin" in Xinmin Street. Seeing the layout of the cabin and listening to the street office leaders and community personnel's comments on the community green environmental protection activities we have carried out over the past year, she couldn't help but sigh: "Although the cabin is small, it has all five organs, and the key is that it can achieve the function of promoting residents' participation, which is very good

渭工路光伏车棚发电站

“光伏车棚发电站建在社区，既解决了居民飞线充电的危险问题，又为社区清洁能源应用做了非常好的示范，这个项目很有创意……”蒋南青老师边参观边向我们反馈着参观两个点的感受和建议。

The photovoltaic shed power station is built in the community, which not only solves the dangerous problem of residential charging, but also provides a very good demonstration for the application of clean energy in the community. This project is very creative... "Teacher Jiang Nanqing gave us feedback on the feelings and suggestions of visiting the two points while visiting.

“碳”未来座谈会

到两个项目点参观交流之后，经二路街道办领导与新民路社区书记，陕西普辉项目主要负责人，与蒋老师就绿色低碳社区发展、碳普惠等问题进行了探讨与梳理。

碳普惠以经二路街道为试点，我们应该如何着手、怎么做，目标是什么、有哪些成效……

作为西北地区，尤其陕西宝鸡，关于低碳社区、碳普惠，经二路街道始终在学习与探索，期望通过多交流、多实践，能“碳索”出一条绿色低碳社区发展的新模式和新路子。

After visiting and exchanging ideas at two project sites, the leaders of Jing'er Road Sub district Office, the Secretary of Xinmin Road Community, and the main person in charge of Shaanxi Puhui Project discussed and sorted out issues such as green and low-carbon community development and carbon inclusion with Teacher Jiang.

Taking Jing'er Road Street as a pilot project for carbon inclusivity, how should we proceed, what are the goals, and what are the results

As a region in the northwest, especially in Baoji, Shaanxi, Jing'er Road Street has always been learning and exploring low-carbon communities and carbon benefits. It is hoped that through more communication and practice, a new model and path for the development of green and low-carbon communities can be developed through "carbon cable".

共同努力 低碳社区

碳“惠”渭滨

“碳”索社区可持续发展新路子—成都·出发

9月中旬，由联合国开发计划署 (UNDP) 全球环境基金小额赠款计划 (GEF SGP) 资金支持，经二路街道组织 15 名社区负责人、社区社会组织负责人等，赴成都考察学习“绿色低碳示范区”、“小区自治”、“信托制物业”、“社区基金管理运行”等方面工作的先进经验，进一步推动街道社区治理创新经验的提升和深化，为创出经二路街道特色的社会治理模式奠定基础，并期望通过考察学习与成都相关方面建立长期性的交流与合作。

学习了成都先进的社会治理经验，带给了我们更多的思路，如何将最新的理念本土化运行，留给我们的思考还有很多。未来，我们将继续在社区可持续社会治理的道路上不断探索前行。

In mid September, with funding from the United Nations Development Programme (UNDP) Global Environment Facility Small Grants Program (GEF SGP), 15 community leaders and community social organization leaders were organized by Erlu Street to visit Chengdu to study and learn advanced experience in areas such as "green and low-carbon demonstration zones", "community self governance", "trust property", and "community fund management and operation", Further promote the improvement and deepening of innovative experience in street community governance, lay the foundation for creating a unique social governance model of Jing'er Road Street, and hope to establish long-term communication and cooperation with relevant parties in Chengdu through investigation and learning.

Learning from Chengdu's advanced social governance experience has provided us with more ideas, and there is still a lot of room for reflection on how to localize the latest concepts. In the future, we will continue to explore and move forward on the path of sustainable social governance in communities.

节能减排我先行 低碳生活向未来

为实现碳达峰、碳中和的长远目标，在宝鸡市率先探索了绿色低碳社区项目。项目支持在渭工路社区建设了“光伏车棚发电站”，在经二路街道建设了“碳中和小屋”。

在金秋的 9 月，经二路街道特邀保护国际基金会北京代表处首席代表，联合国开发计划署全球环境基金小额赠款计划国家指导委员会委员刘晓海老师，到项目点进行回访与指导。渭滨区民政局副局长乔婷婷、经二路街办副主任朱莹以及新民路社区、渭工路社区、经二路联合会及社会组织代表参与了本次项目的回访。

在经二路联合会办公室，项目负责人向刘老师和乔局长一行，系统全面地介绍了“陕西宝鸡城市社区绿色低碳示范项目”，由社区支持多个社会组织、志愿者、社区居民实施的多次绿色低碳活动，随后大家一起前往渭工路社区参观“光伏车棚发电站”。

In order to achieve the long-term goal of peaking carbon emissions and achieving carbon neutrality, Baoji City has taken the lead in exploring green and low-carbon community projects. The project supports the construction of a "photovoltaic shed power station" in the Weigong Road community and a "carbon neutral cabin" in the Jinger Road street.

In September of the golden autumn, Mr. Liu Xiaohai, the chief representative of the Beijing Representative Office of the International Foundation for Conservation and a member of the National Steering Committee of the United Nations Development Programme's Global Environment Facility Small Grants Program, was specially invited by Jing'er Road Street to visit and provide guidance at the project site. Qiao Tingting, Deputy Director of the Civil Affairs Bureau of Weibin District, Zhu Ying, Deputy Director of the Jing'er Road Street Office, as well as representatives of Xinmin Road Community, Weigong Road Community, Jing'er Road Federation, and social organizations participated in the follow-up visit of this project.

At the office of the Jing'er Road Federation, the project leader systematically and comprehensively introduced the "Shaanxi Baoji Urban Community Green and Low Carbon Demonstration Project" to Teacher Liu and Director Qiao. The project was supported by multiple social organizations, volunteers, and community residents to carry out multiple green and low carbon activities. Afterwards, everyone went to the Weigong Road community to visit the "Photovoltaic Shed Power Station".

▷ 碳“惠”渭滨

“光伏车棚发电站”不仅为居民节省了用电费用，也规范了之前私拉电线、危险充电的不安全行为，这也为社区的清洁能源应用做了非常好的示范作用。

在新民巷有一个别致的阳光玻璃房，屋顶可发电，里面的智慧屏、手机充电可都是太阳能带动的呢。还有一辆蹬力发电自行车，为人民展示着低碳出行、自发充电的魅力，这就是多功能小屋——“碳中和小屋”。

项目回访团队一行，对本项目开展的所有活动，给出了高度的赞赏与认可。

刘老师说：“看得出来，陕西普辉和经二路联合会，有非常好的社区基础和居民基础，这个项目执行得很用心，活动效果也非常好，总结评估时好好梳理，把这个项目做成城市低碳社区的示范点……”

同时也提出了很多宝贵的建设性的意见和建议，我们将带着这些珍贵的“金点子”更好地学习与前行。

The 'photovoltaic shed power station' not only saves electricity costs for residents, but also regulates unsafe behaviors such as privately pulling wires and dangerous charging, which also serves as a great demonstration for the application of clean energy in the community.

There is a unique sunny glass house in Xinmin Lane, with a roof that can generate electricity. The smart screen and phone charging inside are all powered by solar energy. There is also a pedal powered bicycle that showcases the charm of low-carbon travel and spontaneous charging for the people, and this is the multifunctional cabin - the "carbon neutral cabin".

The project follow-up team highly appreciated and recognized all the activities carried out in this project.

Teacher Liu said, "It can be seen that the Shaanxi Puhui and Jing'er Road Federation have a very good community and residential foundation. This project has been executed with great care, and the results of the activities are also very good. When summarizing and evaluating, we should carefully organize and make this project a demonstration point for urban low-carbon communities

At the same time, we have also put forward many valuable constructive opinions and suggestions, and we will learn and move forward better with these precious "golden ideas".

民政局社会组织分管副局长乔婷婷说：“跟着你们将绿色低碳环保项目走访了一圈，感触很深，看得出来每个项目活动，你们的团队都花了很多心思去做，更调动了社区社会组织参与的积极性和主动性，这也是我们所希望看到的，希望社会组织能够活跃起来，专业的人做专业的事情，把服务群众的事情做精细、做专业。这个项目中有许多值得学习和借鉴的地方，我也会尽力为你们做好公益项目的宣传工作，让好的项目走出去，被“曝光”，发挥更大的社会价值”。

从光盘行动到绿色出行，从植绿护绿到垃圾分类，从光伏发电到碳中和小屋，低碳环保是一场攻坚战，需要我们长期坚持。人不负青山，青山定不负人，我们有信心打好这一仗，也希望在之后的学习与探索中，走出一条更适合的绿色低碳社区发展新路子。

Qiao Tingting, Deputy Director of the Social Organizations Division of the Civil Affairs Bureau, said: Following you through a tour of green, low-carbon, and environmental protection projects, I was deeply touched. It can be seen that your team has put a lot of effort into each project activity, and has also mobilized the enthusiasm and initiative of community social organizations to participate. This is also what we hope to see. We hope that social organizations can become active, and professional people can do professional things, making the service to the people more meticulous and professional. There are many values in this project I will also do my best to promote public welfare projects that need to be learned and referenced, so that good projects can be exposed and have greater social value.

From Clean Your Plate Campaign to green travel, from green planting to garbage classification, from photovoltaic power generation to carbon neutral hut, low-carbon environmental protection is a tough battle that needs us to adhere to for a long time. We are confident in winning this battle, and we hope to find a more suitable new path for the development of green and low-carbon communities in our future learning and exploration.

“上山下田” 守护心中的姹紫嫣红

UP THE MOUNTAIN AND DOWN THE FIELD
PROTECT THE COLORFUL AND BRIGHT RED IN YOUR HEART!

春天姹紫嫣红，夏天郁郁葱葱……一年四季，我们都在享受着大自然带来的美好。大自然赋予我们太多的温暖和祝福，今天，我们一起行动，一起“掺和”做一些回馈大自然的事。

In spring, there are colorful colors, and in summer, it is lush and lush. Throughout the year, we are all enjoying the beauty brought by nature. Nature has given us too much warmth and blessings. Today, we take action together and "blend in" to do some things that give back to nature.

此次“绿色低碳环保益起行”活动由普辉中心协同新民路社区、渭工路社区与辖区综合体成员单位、社区社会组织、社区志愿者团体、社区居民共同参与。每一位参与者都是“绿色行动”的倡导者，他们将用自己的行动影响身边的每一个人，使全体公众成为生态环境保护的推动者，为宝鸡市生态文明建设添砖加瓦。

The "Green, Low Carbon, and Environmental Beneficial Initiation" event was jointly participated by Puhui Center in collaboration with Xinmin Road Community, Weigong Road Community and member units of the jurisdiction complex, community social organizations, community volunteer groups, and community residents. Each participant is an advocate of the "Green Action", and they will use their actions to influence everyone around them, making the entire public a promoter of ecological environment protection and contributing to the construction of ecological civilization in Baoji City.

在陕西现代农业体验园—龙山玉珠葡萄树下，大家通过环保宣传讲解及倡导体验、种植多肉、种植蔬菜的活动，让大家明白绿色蔬菜、绿色家园的建设更需要回归自然本身，少用塑料袋、食用当季食品、种植的意义、慢节奏的体验、给家多点绿色……都是一种生活的态度。

绿色环保不仅仅是一句口号，在生活的方方面面、小细节中都需要从我做起！

青山绿水，农耕文化，大家纷纷动手栽种蔬菜苗，参与的每个人都非常开心，不禁感慨道：“种地虽是个体力活，但我们累并快乐着。”

春种秋收，期待收获的季节有我们播种的果实，绿色传播者任然有我们的身影！

为了助力“碳达峰 碳中和”双碳战略目标的实现，在联合国开发计划署（UNDP）全球环境基金小额赠款计划（GEF SGP）的支持下，陕西普辉与经二路街道通力合作，通过探索和参与式的工作手法，与当地居民共同努力，为项目社区开启绿色低碳的正确打开方式。此次活动组织社区、社区社会组织、志愿者团队共同参与，践行绿色低碳生活，将环保教育自然的渗透到生活中，让居民在通过公益行动、健步行、农耕体验中以自己的行动影响身边的人，用行动肩负起环保的责任，为保护生态环境做力所能及的事。

At the Shaanxi Modern Agriculture Experience Park - Longshan Yuzhu Grape Tree, through environmental protection promotion and advocacy activities such as planting succulents and vegetables, everyone understands that the construction of green vegetables and green homes requires a return to nature itself, reducing the use of plastic bags, consuming seasonal food, the significance of planting, a slow paced experience, and giving more green to the home. It's all an attitude towards life.

Green environmental protection is not just a slogan, it needs to start from me in all aspects and small details of life!

With green mountains and clear waters, and agricultural culture, everyone started planting vegetable seedlings. Everyone involved was very happy and couldn't help but sigh. "Although farming is a personal activity, we are tired and happy."

Spring planting and autumn harvest, looking forward to the harvest season with the fruits we sow, green disseminators still have our presence!

In order to assist in achieving the dual carbon strategy goals of "peaking carbon emissions and achieving carbon neutrality", with the support of the United Nations Development Programme (UNDP) Global Environment Facility Small Grants Program (GEF SGP), Shaanxi Puhui and Jing'er Road Street have worked together through exploratory and participatory methods, working together with local residents to open up the correct way for the project community to achieve green and low-carbon development. This event involves the participation of the community, community social organizations, and volunteer teams to practice green and low-carbon living. Environmental education is naturally integrated into daily life, allowing residents to influence those around them through public welfare actions, hiking, and agricultural experiences. They shoulder the responsibility of environmental protection through their actions and do their best to protect the ecological environment.

GREEN AND LOW-CARBON COMMUNITY EDUCATION

绿色低碳社区教育篇

新民路社区

新民路社区“城市绿色低碳示范项目”正式启动啦！深入楼院、深入居民，在联合国开发计划署(UNDP)全球环境基金小额赠款计划(GEF SGP)项目及“碳中和”背景下融合社区治理理念，我们将持续地进行社区教育宣传活动，提升社区居民等相关群体对绿色低碳理念认知及参与度，增强社区居民对绿色低碳的直观感受和深度认知，倡导更多居民家庭参与绿色低碳行动。

春暖花开，绿色环保小课堂走进新民路社区万合小区，和这里的居民朋友们、物业伙伴们一起“探讨”对于绿色低碳的认识和我们在全球环境变化的这些年，作为普通居民自身的行为改变。

居民：“垃圾分类的宣传我们经常见”

居民：“买菜一般都用自己的布袋子，但是卖菜的还是会给塑料袋”

居民：“知道一次性筷子不卫生、也不环保，但是外面都是这个，还是会用”

……

在交流中，我们了解到了很多的居民都知道要环保、怎样做能环保，但是在生活中的方方面面还是依循着习惯、从众。

所以，绿色倡导宣传不仅仅是一句口号，而是通过不段的宣讲，带动居民行为的改变，大家一起做绿色的践行者！

The "Urban Green and Low Carbon Demonstration Project" of Xinmin Road Community has been officially launched! We will continue to carry out community education and promotion activities to deepen the understanding and participation of green and low-carbon concepts among community residents and other relevant groups, and enhance their intuitive and in-depth understanding of green and low-carbon concepts, in the context of the United Nations Development Programme (UNDP) Global Environment Facility Small Grants Program (GEF SGP) project and "carbon neutrality", Advocate for more households to participate in green and low-carbon actions.

Spring is warm, flowers are blooming, and the green environmental protection classroom enters the Wanhe community of Xinmin Road. Together with the residents, friends, and property partners here, we discuss our understanding of green and low-carbon, and our behavior changes as ordinary residents in the years of global environmental change.

Resident: "We often see the promotion of garbage classification."

Resident: "When buying groceries, people usually use their own cloth bags, but sellers still give plastic bags."

Resident: "I know that disposable chopsticks are not hygienic or environmentally friendly, but they are still used outside."

In the communication, we learned that many residents know how to be environmentally friendly and how to do it, but in all aspects of life, they still follow habits and follow the crowd.

So, green advocacy and promotion is not just a slogan, but through continuous preaching, we can drive changes in residents' behavior and become green practitioners together!

生活节能小妙招

生活节能处处在，环保志愿者们用小游戏的形式带动居民们发现生活中的节能小妙招，从一点一滴开始改变，每个居民朋友都通过自己的努力领养了一盆小绿植回家哦！

本次活动让大家了解了社区绿色环保项目，也在居民心目中埋下了一颗绿色的种子！期待后面的更多活动，让这颗种子慢慢发芽吧！

Energy saving in daily life is everywhere, and environmental volunteers use small games to drive residents to discover energy-saving tips in their lives, starting to change bit by bit. Every resident friend has adopted a small green plant through their own efforts and returned home!

This event has familiarized everyone with community green environmental protection projects and planted a green seed in the hearts of residents! Looking forward to more activities in the future, let this seed slowly sprout!

低碳出行 爱护环境 需要你我一起来掺和

LOW-CARBON TRAVEL AND ENVIRONMENTAL PROTECTION
WE NEED YOU AND I TO BLEND IN TOGETHER

近两年来环保领域一直倍受关注的课题就是“碳达峰、碳中和”。国家主席在第七十五届联合国一般性辩论上做了重要发言，并提出力争在“2030年实现碳达峰、2050年实现碳中和”的“双碳”战略目标。

“双碳”战略目标与我们每个人都息息相关，目标是否得以实现，更与每个人的改变和行动息息相关。

每个人都是环保行动中重要的一员，每个人都是绿色低碳的贡献者。

一起来看看，经二路街道新民路社区的环保志愿者们的绿色行动吧！阳光明媚的日子里，骑上共享单车、带上环保小旗帜来一场说“走”就走的旅行，大家在河堤路上一边宣传着环保知识、一边捡拾着沿路的垃圾，这些可爱的居民朋友们用自己的行动来践行着低碳与环保，我们希望用广谱的宣传慢慢带动身边居民行为的改变，他们是“美丽中国”的行动者，他们也是河堤道路一道靓丽的风景线！

宣传、倡导、体验……我们旨在将绿色低碳环保知识广泛宣传，让环保理念深入人心，倡导“人人参与环保、爱护地球家园”的行动。

我们愿做环保行动的“花婆婆”，将绿色低碳环保的“种子”播撒到陕西宝鸡的“土地”上，就会慢慢结出那“绿色的果子”啦！

In the past two years, the topic of environmental protection that has received great attention is "carbon peaking, carbon neutrality".

The "dual carbon" strategic goals are closely related to each of us, and whether the goals can be achieved is also closely related to everyone's changes and actions.

Everyone is an important member of environmental action, and everyone is a contributor to green and low-carbon.

Let's take a look at the green actions of the environmental volunteers in Xinmin Road Community, Jing'er Road Street! On sunny days, riding a shared bike and carrying an eco-friendly flag, we embark on a "go" and "go" trip. On the Heti Road, we promote environmental knowledge while picking up garbage along the way. These lovely resident friends use their own actions to practice low-carbon and environmental protection. We hope to use broad-spectrum publicity to slowly drive changes in the behavior of residents around us. They are the actions of "Beautiful China", They are also a beautiful scenery on the riverbank road!

Promote, advocate, experience We aim to widely promote green, low-carbon and environmental protection knowledge, deepen environmental protection concepts in the hearts of the people, and advocate for the action of "everyone participating in environmental protection and caring for the Earth's home".

We are willing to be the "flower mother-in-law" of environmental protection actions, sowing the "seeds" of green, low-carbon and environmental protection on the "land" of Baoji, Shaanxi, and gradually bearing the "green fruits"!

社区绿色低碳课堂 小孩小孩一起来“参与”

儿童是祖国的未来，培育和可持续发展，更要从娃娃就抓起。近几年社会各界都在关注“碳达峰、碳中和”双碳战略目标，关注绿色低碳、气候变化等生态环境的，关乎人类可持续生计的领域，作为社会机构，我们责无旁贷。

儿童是祖国的未来，培育和可持续发展，更要从娃娃就抓起。近几年社会各界都在关注“碳达峰、碳中和”双碳战略目标，关注绿色低碳、气候变化等生态环境的，关乎人类可持续生计的领域，作为社会机构，我们责无旁贷。

《花婆婆》，这是一个小女孩讲述她外婆让世界变得更美丽的故事。故事的主人公在经历了种种困难，还被周围的人们所不理解，但她却用行动得到了大家的支持——在她所经过的地方种出了鲁冰花，让世界变得很美丽。

听完故事后，老师们带着快乐的小故事迷们开始自己动手，进行废旧利用制作环保创意小作品。

为提升社区居民的环保意识，调动居民参与环保、践行绿色行动的广度与深度，新民路社区独特创新的“星期四”绿色低碳课堂正式开课。

课堂以多形式开展，如趣味性课堂、实用性课堂、生活性课堂、操作性课堂带动居民对环保、对碳中和的理念认知，本期课程是旧物改造，参与的有社区社会组织、社区居民，大家纷纷拿出自己的看家本领，剪刀、针线齐上手，一个个垃圾袋、矿泉水瓶、不织布、皱纹纸等在这些能工巧匠手中都“活”了起来，晚礼服、小草莓、小南瓜、拉丁裙等一件件作品得到了大家的称赞。

生命有限，创意无限，在大家眼中的垃圾也可以变废为宝，本期做的“宝贝”们也会在环保行为艺术活动中展出，希望大家用自己的行动带动身边的人，关注绿色低碳、保护我们的美丽家园！

Children are the future of our country, and the cultivation and sustainable development should start with dolls. In recent years, various sectors of society have been paying attention to the "carbon peak, carbon neutrality" dual carbon strategy goals, focusing on ecological environments such as green, low-carbon, climate change, and areas related to sustainable human livelihoods. As social institutions, we are duty-bound.

Children are the future of our country, and the cultivation and sustainable development should start with dolls. In recent years, various sectors of society have been paying attention to the "carbon peak, carbon neutrality" dual carbon strategy goals, focusing on ecological environments such as green, low-carbon, climate change, and areas related to sustainable human livelihoods. As social institutions, we are duty-bound.

Flower Grandma "is a story about a little girl who tells the story of her aunt making the world more beautiful. The protagonist of the story has gone through various difficulties and is not understood by the people around her, but she has gained everyone's support through her actions - planting the Lu Bing flower in the place she passes by, making the world very beautiful.

After listening to the story, the teachers and happy fans of the story began to do it themselves, using waste materials to create environmentally friendly creative works.

In order to enhance the environmental awareness of community residents and mobilize their participation in environmental protection and the breadth and depth of green actions, the unique and innovative "Thursday" green and low-carbon classroom in Xinmin Road Community has officially opened.

Classrooms are conducted in various forms, such as fun classes, practical classes, life classes, and operational classes, which drive residents' awareness of environmental protection and carbon neutrality concepts. This course is about the renovation of old materials, involving community social organizations and residents. Everyone has their own housekeeping skills, using scissors, needles and thread together, one by one garbage bags, mineral water bottles, and non-woven fabrics Wrinkle paper and other artworks have all come to life in the hands of these skilled craftsmen, and evening dresses, small strawberries, small pumpkins, Latin dresses and other works have received praise from everyone.

Life is limited, creativity is infinite, and in everyone's eyes, waste can also be turned into treasure. The "treasures" we have created in this issue will also be exhibited in environmental performance art activities. We hope that everyone can use their own actions to drive people around us, pay attention to green and low-carbon, and protect our beautiful home!

碳“惠”渭滨

环创义集—让爱心也充满绿色

世界环境日之际，新民路社区为提高社区居民对“碳达峰 碳中和”的认知、关注绿色低碳意识得到提升，本期义集以环保为主题，以环创行为艺术、志愿服务等主题活动，宣传环保知识，以互动游戏等活动。

义集现场热闹非凡，精彩的原创环保节目、“以旧易绿”绿植交换、物资捐赠、志愿服务活动……让我们接着往下看吧！

我们的志愿者和社区爱尚模特队的民间艺术家们带来的《环创时装秀》，大家充分利用日常随处可见的物资，用废旧报纸、塑料袋、矿泉水瓶等等环保物资，设计和制作出了一件件漂亮的服饰，用环保行为艺术展示他们的奇思妙想，用行动倡导大家参与环保。

宝鸡文体公益团队带来的自创舞蹈《垃圾分类》让人眼前一亮，宝鸡市朗诵艺术协会为我们带来的原创节目《爱环保》《我的祖国》诗歌朗诵等各类节目，都在倡导我们爱环境，保护地球家园，我们每个人都责无旁贷，减排低碳，需要我们共同努力。

“以旧易绿”的小摊位同样吸引了众多居民驻足观看，居民朋友们带上家中的废旧纸箱、饮料瓶、旧电池、旧衣物等就换取一盆漂亮的绿植哦！一盆小绿植既能够美化居民家中环境又能够培育社区绿色文化，使更多的居民加入到绿色生态建设活动中。

新民路社区环创义集旨在加强居民参与体验，并筹集物资持续帮扶辖区困难家庭，搭建居民家门口的邻里互助平台、宣平台，让居民从我做起，从现在做起，从身边小事做起，提出绿色生活，绿色消费，绿色心情，节约资源，减少污染，进行垃圾分类。

On the occasion of World Environment Day, Xinmin Road Community aims to enhance residents' awareness of "carbon peaking and carbon neutrality" and raise their awareness of green and low-carbon issues. This episode focuses on environmental protection, with activities such as environmental innovation performance art and volunteer service, promoting environmental protection knowledge, and engaging in interactive games.

The Yiji site is bustling with exciting original environmental protection programs, "Green Plants Exchange with Old", material donations, and volunteer service activities Let's continue to look!

Our volunteers and folk artists from the community's Love Model Team brought us the 'Environmental Creation Fashion Show'. We made full use of the materials that can be seen everywhere in our daily lives, using waste newspapers, plastic bags, mineral water bottles, and other environmental materials to design and produce beautiful clothing. We showcased their creative ideas through environmental behavior art and advocated for everyone to participate in environmental protection through actions.

The self created dance "Garbage Sorting" brought by the Baoji Cultural and Sports Public Welfare Team is eye-catching. The original programs "Love Environmental Protection" and "My Motherland" poetry recitation "brought to us by the Baoji Recitation Art Society are all advocating for us to love the environment and protect our planet's home. Each of us has no choice but to take responsibility, reduce emissions and reduce carbon emissions, and we need to work together.

The small booth of 'changing from old to green' also attracts many residents to watch. Residents' friends exchange their discarded cardboard boxes, beverage bottles, old batteries, old clothes, etc. at home for a beautiful green plant! A small green plant can not only beautify residents' home environment but also cultivate community green culture, enabling more residents to participate in green ecological construction activities.

Xinmin Road Community Environmental Creation Yiji aims to enhance residents' participation and experience, and raise materials to continuously assist families in difficulties in their jurisdiction. It also builds neighborhood mutual assistance and publicity platforms at residents' doorsteps, allowing residents to start from themselves, from now on, and from small things around them. It proposes green living, green consumption, green mood, resource conservation, pollution reduction, and garbage classification.

碳“惠”渭滨

绿色低碳进院落 垃圾分类总动员

绿色环保宣讲走进新民路社区新民 1、2 号楼，志愿者们化身环保卫士们，与居民朋友们来了一场“垃圾大作战”。

好玩的垃圾分类大作战游戏，引来了众多的居民观看与参与，每行走一步都是垃圾分类的知识小问答，通过自己的努力答题，最终赢得美丽的绿植，装扮自己的漂亮小家！

儿童更是积极踊跃，在游戏中，小朋友们说到“这个又能玩、又能学习的活动，可以多开展，最好到学校里，那就太好了”！

“以旧易绿”进院落，垃圾分类来宣传。居民朋友们从一开始的不相信，到拿上可回收垃圾，回答问题后兑换成功，更是感叹绿色出行、垃圾分类的重要性，活动寓教于乐，重在参与，也拉近了我们和居民的距离。

此次活动切实提升了儿童和辖区居民垃圾分类和循环利用变废为宝的绿色环保意识，新民路社区环保卫士们将继续开展更多不同类型的绿色低碳主题宣传活动，倡导关爱自然、节约合理利用资源、爱护环境的文明风尚，带动更多的居民参与绿色环保、垃圾分类行动中，为改善社区环境贡献自己的一份力量！

垃圾分类的意义

- 01 将易腐有机成分为主的厨房垃圾单独分类，为垃圾堆肥提供优质原料，生产处优质有机肥，有利于改善土壤肥力，减少化肥施用量。
- 02 将高含水率的厨房垃圾分离，提高了其他垃圾的焚烧热值，降低了垃圾焚烧二次污染控制难度。
- 03 将有害垃圾分类出来，减少了垃圾中的重金属、有机污染物、致病菌的含量，有利于垃圾的无害化处理，减少了垃圾处理的水、土壤、大气污染风险。
- 04 将不同类别的垃圾进行了分流，使最终进入卫生填埋的量大大减少，延长了填埋场的使用寿命。

Green environmental protection preaching entered buildings 1 and 2 of Xinmin Road community, where volunteers transformed into environmental guardians and engaged in a "garbage battle" with resident friends.

A fun garbage sorting battle game that attracts many residents to watch and participate. Every step taken is a quiz on garbage sorting knowledge. Through your own efforts to answer the questions, you will ultimately win beautiful plants and decorate your beautiful home!

Children are even more active and enthusiastic. In the game, the children said, "This activity that can be played and learned can be carried out more. It's best to go to school, that's great!"

Introduce the concept of "old and easy to green" into the courtyard and promote garbage sorting. From initially not believing, to receiving recyclable garbage and successfully redeeming it after answering questions, resident friends are even more impressed by the importance of green transportation and garbage classification. The activities are educational and entertaining, with a focus on participation, which has also brought us closer to residents.

This event has effectively enhanced the green environmental awareness of children and residents in the jurisdiction regarding garbage classification and recycling, and turning waste into treasure. The environmental guardians of Xinmin Road Community will continue to carry out more types of green and low-carbon theme publicity activities, advocating for a civilized trend of caring for nature, conserving and utilizing resources reasonably, and caring for the environment, and driving more residents to participate in green environmental protection and garbage classification actions, contribute to improving the community environment!

夏日之约——“星期四课堂” 跟我们一起变废为宝!

新民路社区“星期四课堂”不知不觉已开展了 8 年，得到了新民路社区及周边居民的大量好评，从开始的手机教学到智能手机应用、各种 APP 和小程序使用、网络和电信诈骗的甄别等等，已越来越不能满足老年朋友日益增长的需求，通过每年学员的反馈，大家希望在课堂里除了学习手机应用，还能有其它娱乐的活动加入其中，大家寓教于乐的同时更能让身心放松！

所以，今年的“绿色低碳星期四课堂”，我们办起来！

今年课堂第一期是废旧盒子大变身，居民朋友带上自己家的废旧纸盒，在老师的指导下，剪彩、贴花、包装，不起眼的“垃圾”们，神奇的变成了一件件作品，阿姨们开心的说“我们今天的收获太大了！很有成就感！家里还有几个盒子，我要做好了给姐妹们炫耀一下”。

除了做作品，我们的老师也把环保小知识带入其中，胶带是什么垃圾？纸盒是什么垃圾？用完的彩带是什么垃圾？……

在这个课堂，我们是学员、也是好朋友，大家做的过程中纷纷分享着自己的趣事！

“星期四绿色低碳课堂”满足了中老年群体对新科技的需求，提供了一个学习和交流的平台，使大家“老有所学”，“老有所乐”。相信通过学习，收获更多的快乐！

下个星期四早上九点，依然一个手工作品，一个手机学习小知识！

The "Thursday Classroom" in Xinmin Road Community has been carried out for 8 years without realizing it, and has received a lot of praise from Xinmin Road Community and surrounding residents. From the beginning of mobile teaching to the use of smartphone applications, various apps and mini programs, and the screening of network and telecommunications fraud, it is increasingly unable to meet the growing needs of elderly friends. Through feedback from students every year, everyone hopes to learn mobile applications in the classroom, There are also other entertainment activities to join, allowing everyone to relax both physically and mentally while having fun!

So, this year's "Green and Low Carbon Thursday Classroom", let's start!

The first episode of this year's classroom is the transformation of waste boxes. Residents bring their own waste paper boxes with them, and under the guidance of the teacher, they cut ribbons, decals, and packaging. The inconspicuous "garbage" miraculously turns into pieces of work. Aunties happily say, "We have gained so much today! We have a great sense of achievement! There are still a few boxes at home, and I want to do them well to show off to the sisters"

In addition to creating works, our teacher also brings environmental protection knowledge into it. What kind of garbage is tape? What kind of garbage is a cardboard box? What kind of garbage is the used ribbon

In this classroom, we are both students and good friends. During the process, everyone shares their interesting stories!

The 'Thursday Green and Low Carbon Classroom' meets the needs of middle-aged and elderly people for new technologies, providing a platform for learning and communication, allowing everyone to 'learn and have fun' in their old age. I believe that through learning, we can gain more happiness!

Next Thursday morning at 9 o'clock, there will still be a handicraft and a mobile phone to learn some knowledge!

碳“惠”渭滨

“绿色”夏令营，看新民路社区！

跟着时间的穿梭机，一起去看看那段峥嵘岁月人们的生活与低碳环保擦出的火花！

8月，新民路社区的环保小卫士们，一起来到麟游县的知青小院内，小院内陈列了以前知青下乡劳作所用的器具、生活用品等，较为“原始”的医疗室、供销社、知青灶、知青宿舍、粮仓、车棚、井房、饲养室等设施，都让在场的孩子们惊讶，这样的生活环境都与现在可有着巨大的差别。

带着问题来思考！

以前的农具与现在农具的区别在哪，哪个更环保呢？

With the shuttle of time, let's take a look at the sparks created by people's lives and low-carbon environmental protection during those eventful years!

In August, the environmental protection guardians of Xinmin Road community came together to the educated youth courtyard in Linyou County. The courtyard displayed the tools and daily necessities used by the educated youth to work in the countryside, as well as the more primitive facilities such as medical rooms, supply and marketing cooperatives, educated youth stoves, educated youth dormitories, granaries, car sheds, well houses, and breeding rooms, which surprised the children present. Such living environments could all be vastly different from what they are now.

Think with questions!

What is the difference between previous agricultural tools and current agricultural tools, and which one is more environmentally friendly?

时代进步利与弊？让我们一起来“找茬”！

同学们在参观的过程，也是学习的过程，我们在这里了解到了以前人们的劳作主要是靠手和牲畜，而现在全是现代机械化；以前的工作效率低，产能低，而现在一个人有台机器就可以干10个人的活，效率高，产能高；以前的空气新鲜、水清澈、吃的都是绿色食品，现在到处都是塑料袋，四季的变化大，以前清澈的河水再也不见了，吃的都是大棚蔬菜！

但是同学们，时代进步是必然的，我们在拥有现代美好生活的时候，注重绿色环保，珍惜能源使用，我们的青山绿水一定会回来的！

每天一个小故事，每天一个新技能

《葡萄》的故事小狐狸想种出最甜最大的葡萄为主基调，站在孩子的角度去看待问题和处理方法，安全的种植、少用农药、还要让大家吃到放心的葡萄哦！将自己的想法分享给大家，虫虫老师肯定了孩子们的想法，并通过故事的主人公的故事，使孩子们深刻体会分享的意义。

让孩子感受爱、忍耐、等待，做事认真负责等，小故事里的大道理并结合日常生活告诉孩子们：需要满怀爱心和学会忍耐还有通过耐心的等待才有可能去实现。

最重要的是，在生活中的方方面面，我们都要把环保的理念带入进去哦！

What are the advantages and disadvantages of advancing the times? Let's find fault together!

During the visit and learning process, students learned that in the past, people's labor mainly relied on hands and livestock, but now it is all modern mechanization; In the past, work efficiency was low and production capacity was low, but now one person can do 10 people's work with a machine, which is high in efficiency and production capacity; In the past, the air was fresh, the water was clear, and everything we ate was green food. Now, plastic bags are everywhere, and there are big changes in the four seasons. The clear river water used to be gone forever, and we all eat greenhouse vegetables!

But classmates, the progress of the times is inevitable. When we have a modern and beautiful life, we pay attention to green environmental protection and cherish energy use. Our green mountains and waters will definitely come back!

A small story every day, a new skill every day

The story of 'Grapes' is based on the theme of 'Little Fox wants to grow the sweetest and largest grapes'. From the perspective of children, we can view problems and solutions, plant safely, use less pesticides, and ensure that everyone can eat grapes with peace of mind! Share your thoughts with everyone. Teacher Bug confirmed the children's ideas and made them deeply appreciate the significance of sharing through the story of the protagonist.

Let children feel love, patience, waiting, and taking things seriously and responsibly. The big truth in the story and combining it with daily life tells them that it is necessary to be full of love, learn patience, and wait patiently to achieve it.

The most important thing is that in all aspects of life, we must incorporate the concept of environmental protection!

走进院落 一起当环保的代言人

学习了各种环保小知识，我们的同学们与新民路社区社会组织模特的姐姐们，一起走进工行家家属院，宣传环保知识与环保理念，用走秀的方式吸引居民驻足观看。

社区志愿者同时走进居民家中，用“你好，邻居”，与居民募集物资，帮助辖区困难家庭的同时，将家庭的环保意识与做法传递给居民。

本次活动得到了家属院的大力支持！

After learning various environmental protection knowledge, our classmates and sisters from the social organization model team of Xinmin Road community walked into the ICBC family home together to promote environmental protection knowledge and concepts, and attracted residents to watch through a runway show.

Community volunteers simultaneously walk into residents' homes and use "Hello Neighbors" to collect materials from them, helping families in need in their jurisdiction while conveying their environmental awareness and practices to the residents.

This event received strong support from the family home!

碳“惠”渭滨

欢乐三八节·环保之花香溢幸福社区

在“三八”节来临之际，为发挥女性在生态文明建设中的“半边天”作用，调动社区女性力量参与生态环境公益的能动性，推动宝鸡市民提高环保意识和积极承担环保责任，宝鸡市环境保护宣传教育信息中心特联动宝鸡市经二路街道社区社会组织联合会、新民路社区、新建路路社区、社区社会组织与志愿组织合作，组织开展“欢乐三八节·环保之花香溢幸福社区主题活动”。

宝鸡市环境保护宣传教育信息中心副主任余亚军组织单位环保工作人员，为在场的女性送上美好的祝福，同时也带动工作人员共同组织和参与“废旧利用制作永不凋零的花朵”。布艺环保袋、废旧口罩、一次性纸杯等等物品，在志愿者老师的指导下，绽放出绚烂多彩的环保之花；社区社会组织和志愿者们将酸奶盒、奶粉袋等充分利用，摇身一变成了一套套华丽的晚礼服；环保志愿者们的原创环保诗朗诵《我们是绿水青山的守护者》，朴实的语言被铿锵有力的朗读出来，感染着现场每一个人。大家发挥各自所长，用自己的智慧、用创意的行动，倡导更多的人将爱护环境、绿色低碳践行于日常生活。

“我们是绿水青山的守护者，我们是绿色低碳的践行者……”活动结束后，朗读声似乎一直回荡在所有人的耳边，环保之花也香溢在了每个人的心间。

自绿色低碳社区课堂开展以来，我们和社区居民因环保而结缘，因环保大家的心更近了。有很多叔叔阿姨说：“自从参与了咱们绿色课堂活动之后，家里所有东西我和家人都要先想想是否还有用，而不是像之前一样，直接扔掉”。

女性在身边 环保在身边

On the occasion of the "March 8" Festival, in order to give play to the "half of the sky" role of women in the construction of ecological civilization, mobilize the initiative of women in the community to participate in ecological and environmental public welfare, and promote Baoji citizens to improve environmental awareness and actively assume environmental responsibility, Baoji Environmental Protection Publicity and Education Information Center special linkage Baoji Jingerlu Street community social organization Federation, Xinmin Road community, Xinxinlu Road community, community social organizations and voluntary organizations to organize the "Happy March Eighth Festival of environmental protection flower overflow happy community theme activities".

Yu Yajun, deputy director of Baoji Environmental Protection Publicity, Education and Information Center, organized the environmental protection staff of the unit to send good wishes to the women present, and also led the staff to jointly organize and participate in the "waste production of never-fading flowers". Cloth bags, waste masks, disposable paper cups and other items, under the guidance of volunteer teachers, bloom a gorgeous and colorful environmental flowers; Community social organizations and volunteers make full use of yogurt boxes and milk powder bags, turning them into a set of gorgeous evening gowns. Environmental protection volunteers' original environmental poetry recitation "We are the Guardian of green Mountains", simple language was read out forcefully, infected everyone at the scene. We give full play to our respective strengths, use our own wisdom and creative actions, and advocate that more people will love the environment and practice green and low-carbon in their daily lives.

"We are the guardian of green water and green mountains, we are green and low-carbon practitioners....." After the event, the sound of reading seems to have been reverberating in everyone's ears, and the flower of environmental protection is overflowing in everyone's heart.

Since the implementation of the green and low-carbon community classroom, we have become close to the community residents because of environmental protection, and our hearts have become closer because of environmental protection. Many uncles and aunts said: "Since participating in our green class activities, my family and I have to think about whether all the things at home are still useful, rather than throwing them away directly as before."

废旧利用 妙手生花

一个个不起眼的环保袋，在老师的指导下，在大家的用心学习和努力下，“康乃馨、小雏菊”争奇斗艳的绽放了，包括朗诵表演者胸前的大红花也是她们巧夺天工的杰作。

随手一扔便是垃圾，充分利用便是宝贝。其实环境保护离我们每个人并不遥远，做好环境保护，我们既是参与者，更是受益者。

愿守护“碧水蓝天、绿水青山”成为我们每个人心中的使命和对地球家园最美好的祝福。

从2023年3.8女神节开始，我们女性“半边天”可以用自己聪明的大脑、灵巧的双手，创造更多“生命重复利用”的奇迹。

Under the guidance of the teacher and the diligent learning and efforts of everyone, inconspicuous environmental protection bags bloomed in full bloom, including the recitation of the performer's big red flower on their chest, which was also their masterpiece of exquisite craftsmanship.

Throwing it away casually is garbage, making full use of it is treasure. In fact, environmental protection is not far from each of us. To do a good job in environmental protection, we are both participants and beneficiaries.

May the protection of "blue water, blue sky, green mountains and clear waters" become the mission in the hearts of each and every one of us, and the most beautiful blessing for the earth's home.

Starting from the August 3rd Goddess's Day in 2023, we women can use our smart brains and dexterous hands to create more miracles of "life reuse".

碳“惠”渭滨

环保课堂——爱学习的人最可爱

每个人在生活中都有一份执著，这份执著来自于对美好生活、美好事物的盼望……学习，也是一样！需要不断地坚持，不断的提升自我。

“星期四课堂”就是为一群爱学习、很执著的老伙计们搭建的平台。

如果不来上课，我们又过着“今天又无事发生”——无聊的一天。起床——吃饭——看手机——睡觉，日复一日，熟的不能再熟的流程，出来上课，和大家伙们一起互动、交流，再跟着老师们学学手机知识、防诈骗知识，动手制作一些有趣的小玩意儿，感觉特别开心。

到户外走一走，亲近大自然，呼吸新鲜空气，学习环保知识、手机知识、摄影知识，用镜头发现大自然的美！

Everyone has a persistence in life, which comes from the hope for a better life and beautiful things Learning is the same! We need to constantly persist and improve ourselves.

The "Thursday Classroom" is a platform built for a group of old friends who love learning and are very persistent. If we don't come to class, we will live a boring day where nothing happens today. Wake up - eat - check your phone - sleep, day after day, the process of being too familiar to be familiar anymore. Come out to class, interact and communicate with everyone, and then follow the teachers to learn about mobile phones and anti fraud knowledge, and make some interesting little things by hand, feeling particularly happy.

Take a walk outdoors, get close to nature, breathe fresh air, learn environmental protection knowledge, mobile phone knowledge, photography knowledge, and discover the beauty of nature through the lens!

户外篇	室内篇	节日篇
<p>有两位叔叔说：“每次上课的时候，我们都是骑自行车来的，既参与了低碳环保又锻炼了身体，还学习了知识，真的很开心”。</p>  	<p>用棉签也能玩出新花样，只要用心、只要参与、只要动手，每个人的艺术潜能都会被激发出来，一起来看看吧！</p> <p>废旧物资未将其一生的使命发挥到极致，就不要轻易给它们“判死刑”，直接废弃！而是想想，它们还可以在我们聪慧的大脑和灵巧的双手的改造下，帮助它们蜕变！</p> 	<p>“又是一年端午节，包粽子、买香包、炸油糕……在这物质完全不缺乏的时代，好像吃什么都没有小时候那么好吃了”！</p> <p>这是很多课堂学员发出的感慨。</p> <p>可当端午节和绿色低碳相结合，又会发生怎样的“化学反应”呢？</p> <p>话不多说，自己瞧瞧去！</p> <p>缝衣服的下脚料、旧衣服等等不打算再启用它的物资，都被我们征集到“新民路社区星期四绿色低碳课堂”，动手制作了属于自己独一无二的小香包。一起过一个环保、快乐的端午节。</p> 

最最最 令人兴奋的体验来啦！

气候变化、环境污染和生物多样性危机，是当今人类社会面临的三大危机。应对气候变化，事关中华民族永续发展，关乎人类可持续生计。

倡导更多的人共同参与生态环境保护，我们一直在行动。本次活动是由联合国开发计划署 - 全球环境基金小额赠款计划支持，由经二路街道新民路社区主办，陕西普辉青年社会发展中心联动宝鸡市渭滨区经二路街道社区社会组织联合会，通过本次行动及儿童的声音，共同呼吁“让我们积极行动起来，广泛宣传低碳发展理念，普及应对气候变化知识，提升全民低碳意识，倡导简约适度、绿色低碳的生活方式”。

老师说，我们要去走街串巷了，还有神秘任务，这可真令人兴奋呢！

Climate change, environmental pollution, and biodiversity crises are the three major crises facing human society today. Addressing climate change is related to the sustainable development of the Chinese nation and the sustainable livelihoods of humanity.

We have been taking action to advocate for more people to participate in ecological and environmental protection together. This event is supported by the United Nations Development Programme Global Environment Facility Small Grants Program and hosted by the Xinmin Road Community of Jing'er Road Street. Shaanxi Puhui Youth Social Development Center collaborates with the Jing'er Road Street Community Social Organization Federation in Weibin District, Baoji City. Through this action and the voices of children, Let's take active action, widely promote the concept of low-carbon development, popularize knowledge on addressing climate change, raise awareness of low-carbon among the people, and advocate a simple, moderate, green, and low-carbon lifestyle.

The teacher said, "We're going through the streets and there's a mysterious mission, which is really exciting!"

环保志愿者老师说：“生态环境破坏带来的后果，我们现在身有感触，暴雨、地震、泥石流……自然灾害时刻威胁着人类的生命，这是地球的健康向我们发出了预警——我们需要保护地球，不让她再受到伤害”。

志愿者老师还告诉我们，小朋友们也可以做力所能及的事情：第一站到新民美食街巷向用餐者、餐饮店主宣传生态环境保护的重要性，并倡导大家在用餐的时候减少对一次性餐具的使用，减少有害垃圾的产生，为生态环境保护身体力行的做出回应。

气候变化、环境污染和生物多样性危机是当今人类社会面临三大危机。人类在大自然面前是那么渺小，在自然灾害面前是那么无助。

应对生态环境危机唯有提前做未雨绸缪的事，为生态环境保护做人类力所能及的事，才能将人类赖以生存的地球家园保护好。

碳“惠”渭滨

The volunteer teacher of environmental protection said: "We are now aware of the consequences of the destruction of the ecological environment. rainstorm, earthquake, mud rock flow... natural disasters always threaten human life. This is the health of the earth that gives us an early warning - we need to protect the earth and prevent her from being hurt again".

The volunteer teacher also told us that children can do what they can: first stop at Xinmin Food Street to promote the importance of ecological environment protection to diners and restaurant owners, and advocate for everyone to reduce the use of disposable tableware during meals, reduce the generation of harmful waste, and respond to ecological environment protection by taking action.

Climate change, environmental pollution, and biodiversity crises are the three major crises facing human society today. Human beings are so insignificant in the face of nature and helpless in the face of natural disasters.

Only by taking precautions in advance and doing what humans can to protect the ecological environment, can we effectively protect the Earth's home, which humans rely on for survival, in response to the ecological environment crisis.

新民美食街巷 环保公益宣传

小小环保劝导员

"你好! 我是环保劝导志愿者 XXX, 打扰您几分钟时间" 小小劝导志愿者们向用餐的叔叔阿姨们介绍着环境保护的重要性, 并倡导他们低碳生活, 减少一次性餐具的使用。

小志愿者们向餐饮店老板介绍环境保护的重要性, 并用自己的真诚与成人对话, 成功的将宣传海报张贴在了餐饮最为显眼的地方, 期望更多的用餐者能够看到这张“美丽中国我是行动者”的宣传海报, 向海报中倡导的一样, 杜绝浪费食物, 减少塑料餐具的使用。

Hello! I am XXX, an environmental counseling volunteer. Excuse me for a few minutes... "The small counseling volunteers introduced the importance of environmental protection to the dining uncles and aunts, and advocated for low-carbon living and reducing the use of disposable tableware.

The volunteers introduced the importance of environmental protection to restaurant owners and used their sincerity to communicate with adults. They successfully posted the promotional poster in the most prominent area of the restaurant, hoping that more diners could see the poster of "Beautiful China, I am an actor". As advocated in the poster, they would eliminate food waste and reduce the use of plastic tableware.

小小行动 大大收获

小小的身影、稚嫩的声音, 用自己的努力和汗水, 至少使 50 余名新民街巷的用餐者和餐饮掌门人, 收到了“爱护生态环境”的信号。

只要有付出, 就会有收获。孩子们在参与的过程中非常兴奋, 并觉得这样的活动非常有意义, 我们期待这些小行动, 能够唤起更多的低碳行动者!

With their small figure, immature voice, and their own efforts and sweat, at least 50 diners and restaurant leaders in Xinmin Street have received a signal of "cherishing the ecological environment".

As long as there is effort, there will be gains. The children are very excited during the participation process and find such activities very meaningful. We look forward to these small actions that can inspire more low-carbon actors!

GREEN AND LOW-CARBON COMMUNITY EDUCATION

绿色低碳社区教育篇

渭工路社区

家庭的好帮手之变废为宝

A GOOD HELPER FOR FAMILIES: TURNING WASTE INTO TREASURE

渭工路社区生活好帮手应用课堂开课啦，淅沥沥的小雨，给课堂带来了一些生动的气息，在社区党建微阵地，居民们拿着提前准备好的废旧瓶罐，期待着本次课堂将带来的惊喜！

倡导绿色生活方式，虫虫老师以“碳达峰、碳中和”的知识讲解及问答、环保宣传短片等带动居民朋友们了解环保相关知识，为了保护环境我们在日常生活中可以做些什么！

所以，变废为宝，循环利用，可以让家里更美丽！

麻绳、塑料瓶、剪刀碰撞出的火花，在居民灵巧的手中，一个个创意纷纷涌出，生活中的废旧物品，原来也可以这么美！

绿色代表自然，绿色象征生命，我们人类的生存和发展依赖于自然环境的开发和利用，环境破坏行为直接威胁到人类的生存和发展。所以，我们每一个人都应该从自我做起，从身边小事做起，留住干净的草地，留住新鲜的空气，留住清澈的河水，留住绿色，留住未来。垃圾分类，旧物利用，从我做起，让绿色低碳成为我们生活的新时尚。

Weigong Road Community Life Helper Application Classroom is starting. The drizzling rain brings some lively atmosphere to the classroom. In the community party building micro position, residents hold pre prepared waste bottles and cans, looking forward to the surprises that this class will bring!

Advocating a green lifestyle, Teacher Chongchong uses knowledge explanations and Q&A on "carbon peaking and carbon neutrality", as well as environmental promotion videos to drive residents and friends to understand environmental protection related knowledge. What can we do in daily life to protect the environment!

So, turning waste into treasure and recycling can make your home more beautiful!

The sparks generated by the collision of hemp rope, plastic bottles, and scissors, in the ingenious hands of residents, creativity emerges one after another. It turns out that waste items in life can also be so beautiful!

Green represents nature, green symbolizes life, and our human survival and development depend on the development and utilization of the natural environment. Environmental destruction behavior directly threatens human survival and development. So, each and every one of us should start from ourselves, from the small things around us, keep clean grass, keep fresh air, keep clear river water, keep green, and keep the future. Garbage classification and waste utilization, starting from me, make green and low-carbon a new fashion in our lives.

每次播下一粒绿色的种子
总有一天它会
在这片美丽的土地上生根发芽

社区绿色课堂 时尚环保人人参与

经二路街道渭工路社区为响应国家提倡的“碳达峰碳中和”目标，提升辖区居民对于绿色环保的关注意识和认知度，渭工路社区绿色低碳环保小课堂正式开课啦！

In response to the national goal of "carbon peak and carbon neutrality" advocated by the government, and to enhance the awareness and awareness of green environmental protection among residents in the jurisdiction, the Weigong Road Community's green, low-carbon and environmental protection small classroom has officially opened!

Party building leads and party members take the lead. The participants in this class are all party members from the community. Through various activities such as playing public welfare videos on "environmental protection", using household energy-saving tips, and Q&A on environmental protection and energy conservation knowledge, the class interacts with residents and friends to make everyone understand that "they should be guarding and taking action". The main gain of this class is to brainstorm and work together, Everyone shared their wisdom and contributed a lot of environmental protection, energy conservation, and family participation ideas to our upcoming "Environmental Protection Handbook".

Everyone has expressed that more such classes should be held so that friends around them can participate!

We have learned that a summer air conditioning temperature of 26 °C is the most energy-efficient and comfortable

Place the fan under the air conditioner and use the fan's wind power to improve the cooling effect

Placing a bottle full of water in the toilet can reduce the amount of water flushed

We will continue to carry out the "carbon neutrality" green classroom in the Weigong Road community after May! There are also various unique small activities, hoping to enhance the enthusiasm of the community to participate in low-carbon environmental protection actions through various forms of experience, and achieve a beautiful community where everyone participates and sustainable development is achieved.

党建引领、党员先行，本次课堂的参与者全是社区的党员，课堂通过播放“环境保护”公益视频、家庭节能小妙招使用、环保节能知识问答等多种环节，与居民朋友们互动，让大家明白“自己应该是守护者与行动者”，本次课堂的主要收获是群策群力，大家共献智慧为我们即将出炉的《环保手册》贡献了不少环保节能、家庭参与金点子。

大家纷纷表示应该多举办的这样的课堂，让身边的朋友们都可以参与进来！

我们知道了：夏季空调温度在26℃是最节能与舒适的，将风扇放在空调机下方，利用风扇风力提高制冷效果；在马桶里放一瓶装满水的瓶子，可以减少马桶的冲水量。5月后，我们在渭工路社区将持续开展“碳中和”绿色课堂哦！还有各种特色的小活动，希望通过多形式的体验，提高社区参与低碳环保行动的积极性，实现社区居民“人人参与、持续发展”的美好社区。

党建红 引领 生态绿

PARTY BUILDING RED LEADS ECOLOGICAL GREEN

宝鸡渭滨区经二路街道办，在强化政治引领上聚力创新，在渭工路社区打造了“红色党建家园”、“绿色环保家园”、“蓝色法治家园”、“紫色自治家园”等“一主两微四庭院”文化特色社区和特色院落。社区以服务项目为契机，扎实开展我为群众办实事服务实践活动，联合渭工路党支部、社区公益志愿服务组织等齐参与，共同开展了“绿色低碳环保”、“小巷管家”、“红色党建”、“三延三化”、“和谐邻里，幸福社区”居民微互助等特色项目，积极实践社区文明、社区共治的治理模式。

“绿色益站”是社区的“共治实践站”。在建站过程中，辖区党员充分发挥积极带头作用，和社区居民打成一片，成功组建起一支居民绿色低碳环保志愿服务队伍，并完成了社区备案，让“绿色益站”能建成、有人管、办活动、成阵地。

社区党员带动居民志愿者参与“益站”建设与维护，积极引导社区开展丰富多彩的实践活动，用好方寸地，做好大文章。“绿色益站”正是“寓红色文化于身边环境”，把党建阵地建在家门口，把党建文化融入日常生活，以红色力量推动绿色发展，助力低碳环保进家入户、见行见效。让“党建红”引领“生态绿”，在共建、共治、共享的基层治理工作中发挥阵地作用，形成人人崇尚生态文明的社会新风尚。

The Jing'er Road Sub district Office in Weibin District, Baoji has strengthened political leadership and created innovative cultural characteristic communities and courtyards in the Weigong Road community, such as "Red Party Building Homeland", "Green Environmental Protection Homeland", "Blue Rule of Law Homeland", and "Purple Autonomous Homeland". Taking the service project as an opportunity, the community has solidly carried out practical activities of serving the people. With the participation of the Weigong Road Party Branch and community public welfare volunteer service organizations, they have jointly carried out characteristic projects such as "green and low-carbon environmental protection", "alley butler", "red party building", "three extensions and three modernizations", "harmonious neighborhood, happy community", and residents' micro mutual assistance, actively practicing the governance model of community civilization and community governance.

The "Green Benefit Station" is a community's "co governance practice station". In the process of building the station, party members in the jurisdiction fully played an active and leading role, and joined forces with community residents. They successfully established a green, low-carbon, and environmental protection volunteer service team for residents, and completed community registration, allowing the "Green Benefit Station" to be built, managed, organized, and established.

Community party members drive residents' volunteers to participate in the construction and maintenance of benefit stations, actively guide the community to carry out rich and colorful practical activities, make good use of space, and do a good job in big articles. The "Green Benefit Station" is precisely the "embedding of red culture in the surrounding environment", building party building positions at the doorstep, integrating party building culture into daily life, promoting green development with the power of red, and assisting low-carbon environmental protection in entering homes and achieving results. Let the "Party building red" lead the "ecological green" and play a leading role in the grassroots governance work of co construction, co governance, and sharing, forming a new social trend of everyone advocating ecological civilization.

同时，在渭工路社区党建微阵地投资建设了绿色光伏车棚发电站，打造了“党建红引领生态绿”的“绿色益站”，社区宣传教育和志愿服务碳积分兑换点；在新民路社区投资建设了以绿色光伏示范教育为试点的“碳中和小屋”，旨在绿色宣传教育和宣传倡导，构建人人参与绿色生态环保的社会新风尚。

在对渭工路光伏车棚发电站的回访中，当地居民对我们的采访交流给予积极地配合，并各自给出了相应的反馈。居民对项目情况总体较了解，电站充电及休闲体验设施使用频次高，很大程度降低了院落电车飞线充电安全的隐患，并且充电费用低，对其满意程度较高，也愿意在家庭践行绿色低碳的生活方式，为社区绿色发展作出改变。很多居民希望社区可以多开展一些绿色低碳环保活动，从口号到行动，一起做“绿色”达人！

经二路街道碳中和小屋现已成为新民街巷的一个亮点，是集居民低碳学习和体验、休息锻炼、手机充电等为一体的开放空间，志愿小分队对进入碳中和小屋的一些群众和周边商户进行了采访交流，其中小朋友更加踊跃，大家觉得小屋外形美观、舒适有趣、环保便利，尤其是外卖小哥和吃饭逛街的行人，更是为他们解决了休息与手机充电的困扰，同时周边居民也纷纷表示愿意参与到社区组织的绿色低碳志愿服务中来。

综合几天项目走访调研，都得到了社区居民的积极认可，为居民的日常生活带来了绿色生机，此前新民路社区和渭工路社区开展的居民绿色课堂也得到了积极地反馈，大朋友和小朋友们都有了不少的收获，并希望此类社区活动能长期开展，将绿色的发展理念贯彻到底。

The carbon neutrality cabin on Jing'er Road Street has become a highlight of Xinmin Street. It is an open space that integrates residents' low-carbon learning and experience, rest and exercise, mobile phone charging, etc. The volunteer team conducted interviews and exchanges with some people and surrounding merchants who entered the carbon neutrality cabin. The children were more enthusiastic, and they found the cabin to be beautiful, comfortable, interesting, environmentally friendly and convenient, especially for delivery boys and pedestrians who eat and shop. It has also solved the problem of rest and phone charging for them, and nearby residents have expressed their willingness to participate in green and low-carbon volunteer services organized by community organizations.

After several days of project visits and research, it has received positive recognition from community residents and brought green vitality to their daily lives. Previously, the residents' green classrooms conducted by Xinmin Road and Weigong Road communities have also received positive feedback, and both adults and children have gained a lot. We hope that such community activities can be carried out in the long term and the concept of green development will be implemented to the end.

保持初心 保护环境

一个有魔法的社区绿色课堂

A MAGICAL COMMUNITY GREEN CLASSROOM

渭工路社区绿色课堂——生活好帮手智能应用课堂又有新作品了。6月阳光明媚，热心的居民们早早的来到了党建微阵地，手拿各种被“遗弃”的物品，期待能“变”出一朵花来，大家的期望能否实现，全看虫虫老师今天教授给大家的手艺。

先动手将自己家准备当成垃圾的瓶瓶罐罐变废为宝，做成漂亮的小花盆。

在自己“美丽的废品作品”里，种上漂亮的小花种子，浇水、施肥、静等花开，是一件美好的事。

花土上场，一粒粒小种子被小心地埋下，细心的呵护着，社区自治互助小组的成员们主动请缨，要照顾这些宝贝们，大家期待着这些种子破土而出的那一天，我们共同期望我们的绿色低碳课堂越来越好！

The Weigong Road Community Green Classroom - Intelligent Application Classroom for Good Life Helpers has new works. In June, the sun was shining brightly, and enthusiastic residents arrived early at the party building micro base, holding various abandoned items in their hands, hoping to "transform" into a flower. Whether everyone's expectations can be realized depends on the craftsmanship taught by the insect teacher today.

Start by turning the bottles, jars, and jars that your home has prepared as garbage into a beautiful little flower pot. Planting beautiful small flower seeds, watering, fertilizing, and calming flowers in one's own "beautiful waste products" is a beautiful thing.

Flower soil comes on stage, and small seeds are carefully buried and carefully cared for. The members of the community autonomous mutual aid group take the initiative to take care of these babies. We look forward to the day when these seeds break through the soil, and we all hope that our green and low-carbon classroom will become better and better!

DIY旧物改造

DIY OLD PROPERTY RENOVATION

为进一步普及低碳环保理念，倡导绿色低碳生活。将绿色、低碳、环保、创新、智慧、人文真正融入进社区居民的生活中。陕西普辉青年社会发展中心联合经二路街道渭工路社区举办的绿色课堂又有新行动了！

居民将家中平日里不穿的废旧衣物和布料，带到课堂中来，在虫虫老师的指导下使其焕然一新。针线在手中飞舞，将一件件本应早丢弃的物品赋予其新的功能和意义。

本次活动宝鸡市妇联也同时参与其中，学习环保知识，带领社区居民一同探索环保对社区的影响，并对渭工路社区培育女性环保组织表示肯定，也对社区定期开展绿色低碳课堂给予了高度评价，希望更多居民及社会组织可以一同参与其中，群力群策，让环保理念真正在社区中生根发芽。

To further promote the concept of low-carbon environmental protection and advocate for green and low-carbon living. To truly integrate green, low-carbon, environmental protection, innovation, wisdom, and culture into the lives of community residents. The green classroom jointly organized by Shaanxi Puhui Youth Social Development Center and Weigong Road Community in Jing'er Road Street has taken new action!

Residents bring their unused clothes and fabrics to the classroom and, under the guidance of the insect teacher, make them look brand new. Needles and thread dance in their hands, giving new functions and meanings to items that should have been discarded long ago.

The Women's Federation of Baoji City also participated in this event, learning about environmental protection knowledge, leading community residents to explore the impact of environmental protection on the community, and affirming the cultivation of female environmental protection organizations in the Weigong Road community. They also gave high praise to the community for regularly conducting green and low-carbon classrooms, hoping that more residents and social organizations can participate in it together, work together, and make environmental protection concepts truly take root and sprout in the community.

DIY

碳“惠”渭滨

巧手匠心，宝贝大变身

CLEVER CRAFTSMANSHIP AND GREAT TRANSFORMATION OF THE BABY

本次课堂在民间手编艺人刘阿进老师的指导下，带大家进行了一个美妙午后的体验，居民群众纷纷参与其中，将家中用过的塑料瓶，饼干盒，废旧托盘，巧手匠心，通过手编，装饰，点缀，变成一件件精美的艺术品。

刘老师说：其实家中许多废弃的无用的日用品都只是失去了其自身原有的价值，稍加结合和改造就可以给其赋予新的功能继续使用。

“垃圾”每天都会产生，多动动手、用用脑，将废物循环利用，将发现生活中的更多甜蜜。

本次绿色课堂旧物改造环保活动体现着“低碳、绿色、环保”新生活理念，生动形象的让居民朋友对环保与垃圾分类的理念深入人心。下一步，社区将进一步引导广大居民树立文明、环保、节俭、健康的思想观念和生活方式，让“文明健康 绿色环保”的理念深入人心！

Under the guidance of folk handicraft artist Liu Ajin, we had a wonderful afternoon experience in this classroom. The residents participated in it, turning the plastic bottles, cookie boxes, and waste trays used at home into exquisite works of art through hand weaving, decoration, and embellishment.

Teacher Liu said: In fact, many discarded and useless daily necessities in the home only lose their original value. With a little combination and modification, they can be given new functions to continue using.

Garbage is generated every day. By using your hands and brain, recycling waste and discovering more sweetness in life.

This green classroom renovation and environmental protection activity reflects the new life concept of "low-carbon, green, and environmentally friendly", vividly and vividly making residents and friends deeply rooted in the concept of environmental protection and garbage classification. Next, the community will further guide residents to establish a civilized, environmentally friendly, frugal, and healthy mindset and lifestyle, allowing the concept of "civilized, healthy, green, and environmentally friendly" to deeply ingrain in people's hearts!

绿色环保课堂走进渭工路社区

绿水青山就是金山银山

“要像保护眼睛一样保护生态环境，像对待生命一样对待生态环境”。
——2018年5月18日，习近平总书记在全国生态环境保护大会上的讲话

学生态文明思想 创绿色美好家园

8月10日，渭工路社区联合陕西普辉中心、经二路联合会开展的绿色低碳特色课堂开讲啦！

本次课堂邀请的是宝鸡文理学院马克思主义学院概论教研室副主任王小莉老师，为社区的党员、居民群众开展了一堂深入而又生动的绿色环保特色课堂！

王老师以习总书记生态文明思想为指导，从生态文明观、自然观、价值观、治理观、共赢观，拓展到碳达峰碳中和，让课堂的党员群众更深刻的理解到“人与自然是生命共同体，人类必须尊重自然、顺应自然、保护自然”。

On August 10th, the Weigong Road Community, in collaboration with Shaanxi Puhui Center and Jing'er Road Federation, launched a green and low-carbon characteristic classroom lecture!

This class invited Professor Wang Xiaoli, Deputy Director of the Introduction Teaching and Research Office of the School of Marxism at Baoji University of Arts and Sciences, to conduct an in-depth and vivid green environmental protection characteristic classroom for community party members and residents!

Through this green characteristic classroom learning, we hope that everyone is not only "themselves" practitioners of green actions, but also we are all disseminators, advocates, drivers, and infected individuals of green environmental protection.

The Weigong Road Community, Shaanxi Puhui Center, and Jing'er Road Street Federation will also integrate theory with practice, promote the implementation of community environmental protection plans, and promote the construction of ecological civilization to a new level.

建设绿色低碳社区 我们可以做什么呢？

此次绿色环保课堂，“特”在将党的思想与绿色低碳结合。“色”在以绿色发展观为主，纵观人类进步。现场的互动、举例论证的方式以及通俗易懂的语言，为在场的党员群众解释了生态环境与我们日常生活乃至国家发展之间密不可分的联系，让我们深刻了解到“绿水青山就是金山银山”这句话的真正含义。

绿色环保不是一句口号 而是每个人的行动！

通过这次绿色特色课堂的学习，希望大家不仅仅“自己”是绿色行动的践行者，而是我们都是绿色环保的传播者、宣讲者、带动者、感染者。

渭工路社区和陕西普辉中心、经二路街道联合会也会将理论联系实践，推行实施社区环境保护计划，推动生态文明建设迈上新台阶。

一个漂亮发卡的诞生

THE BIRTH OF A BEAUTIFUL HAIRPIN

在大家的殷殷期盼下，渭工路社区绿色低碳课堂迎来了第二次手工课程。大家都是手残党，一看就会，一学就废，但是有什么关系呢，重在参与，在这里，我们很开心！

一个简单的发卡

经过“线条”的加工

又会变成一个什么样的发卡

线条在指尖飞舞

一个个缠好的发卡相继而来

怎么会不期待快乐的时光呢

对于现在的辖区居民们来说

能够一起跟着老师学习手工

就是一种快乐

“自己做的回家给小孙女戴上”

居民们纷纷开心道

以后可算知道废旧毛线怎么派上大用场了。

With everyone's enthusiastic expectations, the Green and Low Carbon Classroom of Weigong Road Community has welcomed its second handcraft course. Everyone is a hand crippled party, and they can be easily defeated at first glance. However, what's the matter? The key is to participate, and we are very happy here!

A simple card issuance

Processed by "lines"

What kind of hairpin will it become again

Lines dancing at fingertips

A series of wrapped hair clips came one after another

Why don't you expect happy times

For the residents of the current jurisdiction

Can learn handicrafts together with the teacher

It's just a kind of happiness

I made it myself and put it on my granddaughter at home

Residents are all happy to say

In the future, I can see how waste wool can be put to great use.

确认过眼神，是会分类的人 让垃圾回家 · 让旧物发光!

垃圾分类 · 变废为宝

“垃圾分类”不仅是一个政策，也不仅是一个口号。更是我们美好的愿景和为之需要付诸的行动。

经二路街道渭工路社区组织了居民朋友开展了“让垃圾回家·让旧物发光”的环保主题活动，欢迎围观。

跟随工作人员一起进行了热闹的“垃圾分类知识小问答”活动，居民朋友们纷纷抢答，在讨论、争论中学习了垃圾分类的专业知识。

“高手在民间”，此言非所虚。为了让居民朋友们都能学会“变废为宝”，社区邀请了两位“变废为宝”的民间高手，带着社区的居民朋友们一起学习将生活中的废旧物品充分利用动手制作。

'Garbage classification' is not only a policy, but also a slogan. It is also our beautiful vision and actions that need to be put into action.

The Weigong Road community in Jing'er Road Street organized an environmental themed activity called "Let Garbage Go Home and Let Old Things Shine" among residents. Visitors are welcome to watch.

I followed the staff to participate in a lively "garbage classification knowledge quiz" activity, where residents and friends rushed to answer and learned professional knowledge of garbage classification through discussions and debates.

The saying 'experts are among the people' is not empty. In order to enable residents to learn how to "turn waste into treasure", the community invited two folk experts who "turn waste into treasure" to learn how to make full use of waste items in daily life with their community friends.

魔法剧场

这里是：易拉罐、饮料瓶、水果网袋、餐巾纸 ... 的魔法剧场

看到作品的美好，谁还能想象出它们当初被扔在垃圾筒的样子

马大姐，看起来五十出头，实则已是年近一位七十的老党员。不仅自己和家人生活中处处使用废旧物料制作的环保袋、纸巾盒等等，更为身边的亲朋好友送环保物品，一位能工巧匠。

一位真正爱花的人。六十多岁的“曹大姐”，卫生纸、布袋子、水果网袋 ... 任何被我们随手扔掉的物品，到了她的手上都会变成一朵花。

PROJECT STORY
项目故事篇

绿色低碳环保 促进社区发展

从 2021 年起，我们新民路社区与社会组织陕西普辉青年发展中心联合，在经二路街道的牵头协调下，我们争取到了联合国开发计划署 (UNDP) 全球环境基金小额赠款计划 (GEF SGP) 的项目。项目于 2022 年启动，以微治理为载体、低碳为纽带，盘活社区存量空间，融入低碳元素，关注居民生活方式转变，在提高辖区居民群众宜居度的同时倡导低碳生活，营造绿色家园，同时在探索居民自治、多方参与等方面积累了经验。

倾听居民不同声音，促进多方高度参与。

项目正式开始前，结合疫情防控和宣传活动，我们组织社区工作人员、志愿者，通过问卷调查、访谈、方案公示、座谈会、开展绿色低碳环保项目的宣传等多种形式，收集辖区居民真实的低碳数据，了解居民生活中的低碳环保状况。这一行动同时也对社区居民群众进行了低碳环保的宣传，提高了他们的关注度和参与项目的积极性、主动性。

社区动员从我做起，倡导低碳环保理念。

我们以社区的三无小区为主，由专业社会组织、社区居委会带领志愿者不定期组织自然观察和分享活动，吸引辖区居民广泛参与，不但促进了居民之间的相识和交流，同时增进居民低碳健康生活意识，推动社区空间更新与低碳绿色生活方式培育有机融合。让这个由第三方机构承接、专家指导、居民共同发力的社区绿色低碳项目充满了生机和活力。

丰富绿色社区实践，倡导生态文明风尚。

在社区孵化培育社区环保组织，结合老旧小区的改造，将低碳环保理念融入其中，增设小区绿地，扩大绿地的覆盖面积，丰富楼院的空间功能，激活空间的活力，也激发出居民自己绿色环保的意识和潜能，如：节约用水、用电等生活资源、低碳出行等。社区还在部分小区增设了绿植和雨水收集装置，收集雨水再利用帮助浇灌绿植，在美化环境的同时，提高水资源利用率。

以丰富的绿色社区课堂，将绿色低碳环保理念在社区充分宣传与推广。其中：绿色环保儿童故事会、社区居民绿色课堂、原创环保时装秀、环保倡导进楼院等多个活动，深受社区居民的认可与赞赏。

建设低碳绿色益站，推动人人环保行动。

项目支持我们在新民街区建成了陕西首个“碳中和小屋”，为居民提供光伏充电等服务的同时，建立社区服务“绿色益站”，集宣传、活动、示范等功能为一体的绿色社区示范点。成立了社区环保劝导员——儿童志愿服务小组，使碳中和小屋所在的美食街区成为低碳生活的先驱者，真正发挥“绿色益站”多元的功能。

通过这一项目的开展，我们立足于最具生活气息的楼院和小区，从一系列的宣传活动，设计了以环保为主题的各个活动，使环保理念深入人心，让居民感受到不经意间就能做到环保并收获快乐，社区的环境越来越好了，人们低碳环保的意识增强了。社区更聚集了一批能人志士，积极的参与到社区的活动当中，他们纷纷表示这是一种绿色发展的新风尚，能参与其中是莫大的欣慰。我们也通过激发他们潜能，将一部分能人孵化培育成我们社区的备案社会组织，为社区旧的发展注入了新的活力和动力。

新民路社区党总支部书记
李莲娥

居民小区里光伏车棚发电站

经二路街道渭工路社区位于新建路西段，是地道的老城区。宝运二村院落位于新建路西段 15 号院，院内共有居民户 710 户，2001 人，党员 135 人。但一直以来困扰他们的问题就是飞线充电、车辆乱停乱放、院落活动中心用电等。

2021 年一道“曙光”照亮了社区——联合国开发计划署 (UNDP) 全球环境基金小额赠款计划 (GEF SGP) 项目要落地社区。此项目以绿色低碳环保为主，以社区居民切实需求为宗旨，结合社区治理工作，探索和开展低碳社区建设的相关活动。

项目设计前期，社区与陕西普辉青年社会发展中心、经二路街道社区社会组织联合会通力合作，经过社区两委班子召开会议集体商议、走访居民调研、院落组织访谈、专业社会组织指导，结合陕西省“十四五规划”绿色低碳总体要求，最终决定在宝运二村院落开展“绿色低碳环保项目”以解决院内固有问题，同时建立“绿色益站”，通过参与体验式的形式带动居民参与社区治理。

“渭工路社区光伏车棚发电站”，是陕西首家社区层面的光伏车棚发电站，是经二路街道办、社会组织、社区、居民等群策群力智慧的结晶。它的建成不仅解决了老旧院落乱停放、飞线充电的问题，更让绿色低碳社区教育、公共教育有了一个非常聚焦的载体，也让院落里居住的人们对低碳有了更深入和直观的了解。它简洁大气的造型设计给院落增添了一道靓丽的风景线。光伏发电站位于院内居民活动广场北侧，总面积 100 平方米，为居民提供休闲空间及小型车辆充电、防晒、防雨等便捷服务。同时受益于宝运二村 700 多户居民，光伏车棚发电站安装了 18 个充电头，电瓶车充电 4 小时才收 1 元，彻底解决院内飞线充电问题并使居民获得用电实惠。

在过去两年的时间里，结合光伏车棚发电站，社区与社会组织紧密合作，开展了多期“巧手匠心·社区绿色低碳课堂”，为居民解读环境保护、解读“双碳目标”和每个人的关系，解决低碳生活如何付诸行动……废旧循环利用小制作、老旧小区美化、绿化种植等等。所有活动居民积极参与、高度参与，我们还挖掘了居民中的优秀人才，孵化了环保社区社会组织，支持社区开展环保活动。

为引导居民参与，社区以“党建红”引领“生态绿”，在光伏发电站内建成了“绿色益站”，倡导绿色环保低碳生活，把党建文化融入日常生活，以红色力量推动绿色发展，使其在共建、共治、共享的基层治理工作中发挥阵地作用，并在社区打造了绿色环保主题院落，建立了垃圾分类学习示范站点，带动居民成为“美丽中国—我是行动者的其中一员”，构建了“人人爱护环境、人人低碳环保”的社区文化，形成人人崇尚生态文明的社会新风尚。

现如今，辖区党员充分发挥带头作用，带领社区居民组建绿色低碳环保志愿服务队伍，参与光伏发电站及“绿色益站”的建设、管理和运营维护，同时志愿服务于院落居民，以老带小、朋辈互助，院落整体融洽和谐。光伏电站的建设，示范可再生能源在社区中的应用和效益，解决了社区治理难题，院落“绿色益站”的宣传与使用，开展了碳中和公共教育和社区倡导的活动的同时，持续提升社区居民对碳中和的认知和了解，强化支持和参与社区治理的信心，“既好看又实用”是院内居民对这个项目的最高评价。

未来，社区还将继续努力，将好的经验作法传承下去，并将不断学习和创新，努力让“生态之花”在渭工路社区这片沃土上遍地开花。

用行为艺术 玩创意环保

项目故事篇 PROJECT STORY

2021年10月，宝鸡市经二路街道新民路社区，申请到了联合国开发计划署（UNDP）全球环境基金小额赠款计划（GEF SGP）支持的绿色低碳社区项目，我们文艺团队有幸参与其中，经过专业人员的培训和支持，将绿色低碳环保和艺术创意社区教育有效结合，使较具特色的“经二路街道生态之花”绽放新民路社区，并播撒渭滨、走出宝鸡，荣登省级的舞台。

记得被社区号召过来参与绿色环保项目的时候，我们队伍的所有人都认为，应该就是垃圾分类等活动，或者再发一些环保宣传单吧。可当参加完第一次项目培训会的时候，我就感觉到了前所未有的兴奋。因为听到老师介绍说，我们的项目是专业基金会支持的，要求比较高，并且要将有限的资源投入到最有需要的地方去。项目支持在我们社区最热闹的美食街建1个碳中和小屋，在社区要孵化成立环保组织，用微公益创投的形式服务推动绿色低碳环保发展。

之后跟着社区参与一次次的活动，我们都觉得更有意思了。“以旧易绿·义仓义集”旧物回收兑换活动、“低碳生活节能小妙招进楼院”、“儿童环保故事会+废旧利用手工课”等等。但最让我有成就感和快乐的活动，就是将回收回来的废旧物资进行改造，既发挥了女性巧手的优势，又推动了我们文艺团队的创新，更结合低碳知识促进环保行动的社区宣传，这就是我们的“原创废旧利用环保时装秀”。

老师们启发：说起环保，不要局限于垃圾分类，因为这是一个专业而系统的事情，我们要发挥我们的作用和优势，打开思维，用各种形式将低碳生活、绿色环保等等任何人、任何时间、任何地点都可以付诸环保行动的理念，带给更多的人，呼吁更多人参与。老师说，比如我们文艺团队的，可以用行为艺术的形式传递环保理念，如环保时装秀、环保舞蹈、环保诗朗诵、废旧物资作品展等等。

于是，废旧报纸、沐浴花、旧对联、花束包装纸、旧衣服、蛇皮袋子、一次性纸杯、旧雨伞、奶粉袋等等，一切能重复使用的东西，都被我们拿过来大胆尝试和挑战，就连我们吃完玉米的外皮都被拿来做成了衣服。没想到包括我们时装秀的很多环保艺术节目，都在全市六五活动及本项目启动会上进行了充分的展示。我们的环保时装秀得到了媒体的充分关注，应邀参加了省上的模特大赛，并荣获一等奖。

参与这些活动之后，我觉得我们团队不仅仅眼界也打开了，团队的发展更得到了升华，我们已不再是仅仅表演一个个文艺项目的队伍了。用团队老师的话说：“穿上表演服，我们是民间艺术家，穿上社会组织的马甲，我们就是专业的志愿服务者。”

经二路街道新民路社区的环保行为艺术，带给我的不仅仅是成长，更有着社区服务不一样的体验、成就和快乐。

社区社会组织联合会
陈艳萍

环保“业余专家”团队 助力低碳社区发展

“宝鸡文体公益团队”，原本是一群爱好健身的人相聚在一起，因着健身娱乐慢慢有了一个有组织的民间文体团队。2020年起，我们团队在经二路街道联合会的支持下，踏入了公益服务的领域。平安建设、社区教育主题宣讲、疫情防控、服务困境家庭……团队的每个身影，活跃在经二路街道各社区、各领域、各个有需要的地方。跟着经二路联合会参与的这些扎根社区、服务社区的点点滴滴，让我们团队的所有队员感觉内心更加充实，前行的脚步更加坚定。

2021年起，我们团队有幸参与成为“联合国开发计划署（UNDP）全球环境基金小额赠款计划（GEF SGP）”的支持者、志愿者。

从开始不了解什么是低碳，什么是双减，不知道什么是零排放，在一次一次的宣传学习，一次一次的科普中，目睹了太阳能发电，供居民活动站使用，车棚用电，健身器材自发电供手机充电使用等等。

为了更好的投身低碳环保社区服务，扩大宣传面，我们团队在陕西普辉、经二路联合会团队的督导下，在社区的指导下，成立了绿色环保宣传小分队，组织文艺骨干创作出《垃圾分类歌》舞蹈，诗朗诵《我们是绿水青山的守护者》等六个文创产品，在宝鸡当地多个社区进行公益宣传演出，多个节目被推选参与宝鸡市级活动宣传。目前，形成了一个良好的低碳环保氛围，关注人数超万人次。

团队凝聚了100余名公益成员，各取所长，在倡导居民低碳生活、绿色生活等环保活动策划与实施方面，利用自媒体大V，在网络上积极报道宣传项目下的各种活动，点击量超30万人次。

回首过去几年的“生态环保”经历，成为了我们团队成长的精神财富，让我们从不了解，到现在成为低碳环保宣传的“业余专家”，是联合国计划开发署低碳项目培育出来的民间优秀社会组织。我们也将带着这些成果继续投身于社区、服务于社区，使“陕西宝鸡城市社区绿色低碳示范项目”成为三秦大地上一道绿色的风景线。

PROJECT STORY
项目故事篇

我的暑假环保小确幸

生活中我们常遇到身穿“红马甲”的人，一直以来都是我羡慕和尊重的人，我感恩因为有他们而让我们的生活更美好。尤其过去几年的疫情防控工作，“红马甲”们协助白衣天使们发挥了很大的作用。

8月18日下午，我有幸与20多个小朋友参加了新民路社区举办的环保志愿宣传活动。我们穿上了志愿者的绿马甲，老师为我们赋予一个新奇而神圣的名字“生态环境保护小小劝导员”。听到这个名字的时候，我就很好奇，我们去劝谁？怎么劝？

活动开始前，老师为我们普及了如今的地球环境问题：由于大量工厂肆意排放废水和有害气体，大气臭氧层被破坏，全球变暖；再加上人们乱砍滥伐树木，大量使用一次性餐具以及捕杀动物等，整个地球不堪重负。然后她又给我们讲了如何做好环保劝导，并安排我们上街，对店主和行人进行宣传理念、劝导低碳生活。

来到新民巷美食街，我和一个高个子的小妹妹一起做宣传。由于第一次参加这种活动，我决定去找一位看起来比较和蔼的店主。一路上我的大脑飞速运转：应该如何说服店主？如果店主拒绝我该怎么办？带着忐忑的心情，我们来到了一家小吃店门口，店主正埋头做饭，我小声对他说：“您好”，店主抬起头，微笑着看着我们。我深呼吸了几次，鼓起勇气，大声说：“我们是新民路社区的环保劝导员。我们需要共同保护生态环境，希望您的店里减少或禁止使用一次性餐具...”老板认真听着，时不时点点头。在经过他的同意后，我们把环保宣传单贴在他的店门口。我悬着的一颗心终于放下了。

当我们给一家餐馆宣传时，两个准备就餐的顾客还主动使用了消毒筷子，并且说：“这些孩子真可爱，我们要支持他们，也是爱护我们的环境，放心吧！小可爱们，以后我们会做到的”。听到这些，我们倍受鼓舞，带上自信我们飞快的穿梭在美食街巷的各个餐饮店里。

凡是宣传到的店铺，老板都愿意我们将环保宣传单贴在店里醒目的地方，方便顾客看见，主动配合减少一次性筷子的使用。活动结束了，跟着老师往回走的时候，我特意回头看了每一家店里墙上那张醒目的环保宣传海报，那是我和小伙伴们的劳动成果，我们都期待这张美丽的海报能被更多来来往往的人们所看到，并能和我们一样、和可爱的餐饮店的老板一样，用自己小小的行动，保护我们大大的地球。

通过这次活动，我感受到生态环境保护、绿色低碳生活的理念已被大多数人接受，并且在生活中处处践行。从今以后，作为环保劝导志愿者的我，也要时刻将爱护环境、低碳生活落实到生活中的方方面面，比如：上学时我要尽量乘坐公交车或步行，生活中不使用一次性筷子，自带水杯减少购买瓶装水等等，并要告诫我的同学们也要加入环保行动中来，做真正爱护环境的好少年。

感恩今年暑假的这次小确幸，让我真正的成为“美丽中国——我是行动者”的其中一员，更感恩我成了一个能够服务他人、服务社会的光荣志愿者。

侯炫伊

我是“红领巾环保劝导员”

“烟圈里冒的是白烟”，爸爸接我上下学的时候，常常这样念叨。
“爸爸，烟圈里冒的是白烟”，不知从什么时候起，开始由我向爸爸汇报了。
打从记事起，我们老家房子旁边的热力公司的大烟囱，成了我们全家路过时都会关注的焦点，虽然当时不太明白，为什么爸爸喜欢白色的烟，但觉得大烟囱归爸爸管，还挺酷的！

不过跟着爸爸也有“很丢脸”的时候，比如我们一家人去河滩上玩，别的爸妈都在陪孩子玩水嬉戏，而我们一家却跟着爸爸捡起裤腿沾在烂泥里捡垃圾，因为爸爸说这些塑料垃圾泡在河水里对水的污染可不止100年呢。

我的妈妈，大家都叫她“虫虫老师”，不知是不是受爸爸的影响，也在做和环境保护有关的工作。记得有一次，妈妈在整理爸爸公文包的时候，看到有一本《碳达峰、碳中和知识100问》的书，兴奋的跑去向爸爸借阅，说刚好自己也准备要买呢，拿到后就高兴的翻阅起来。我扫了一眼，看到上面被爸爸画了很多不同的线条，还在旁边写了字。那本书有什么好呀，看把妈妈高兴的，还能比我的《哈利波特》好看？真搞不懂他们俩！

自那次借书之后，时常听爸爸妈妈聊起关于绿色低碳、双碳目标什么的，我总是觉得很无聊。可就在暑假里8月18日的那天，我跟着妈妈和她单位的同事们，以及社区的叔叔阿姨和其他十多个小朋友们一起，做了一件十分有价值、超级有趣的事。

那天下午到了新民路社区后，我才发现我是他们社区儿童环保劝导员志愿服务小组的编外人士。新民路社区里的小朋友们成立了一个志愿者小队伍。而我呢，是被“虫虫老师”硬要求过来的，因为从小她就跟我说，要多参与社会实践活动，既能服务他人，又能自我成长，可很多时候，我觉得还挺难为情的。

活动开始了，我们每个人都穿起了环保志愿服务的小马甲，虫虫老师给我们讲了许多前所未闻的新鲜知识，比如：3000双一次性筷子等于一棵20年的大树。我国每年消耗一次性筷子450亿双，耗费木材166万立方米，需要砍伐大约2500万棵大树，减少森林面积200万平方米；塑料制品比如塑料袋、饮料瓶等如果乱扔的话，在地球上可存在至少100年；人类每天开车、耗电等等，都会产生大量的二氧化碳……听完这些后，在场所有小朋友都发出了不可思议的惊叹声。

讲完这些平常我们不太了解的环保知识后，老师们就开始给大家派任务了：“小朋友们，我们之前参与的环保课堂，大家表现得非常不错，比如用回收物品进行改造，让它们重复使用，劝导爸爸妈妈生活中节约资源、少购买衣服、低碳出行等等。但今天我们要有新任务了，接下来就是行使你们环保劝导员使命的时候了”……

原来大人们“早有预谋”，他们将设计好的海报发给了我们，让我们去新民路美食街的餐饮店去，劝导老板和顾客减少使用一次性餐具，并且要说服老板们，同意将宣传海报张贴在餐饮店里，让更多的人看到。

带着心中的忐忑和小朋友们一起出发了，一路上我还害怕人们会不耐烦，或是店主直接把我给赶出去。可当我拖着沉重的脚步缓缓的挪进我的第一家目标店“冒骑士砂锅店”的时候，老板很热情的问我：“小朋友，想吃点什么？”我一下子慌了，连忙回答“我不吃饭，我是来发海报的，我……”老板人很好，没有因为我是“发传单”的而直接把我轰出去，于是我壮了壮胆子，清了清嗓子却支支吾吾的把老师讲给我们的知识复述了一遍，并鼓起勇气说：“爱护环境人人有责，我希望你们店以后也劝顾客减少使用一次性餐具”。老板听后笑了笑并且同意的建议，更同意将我手中的海报贴在他们店最醒目的地方，我们还一起合了影。接着，我又拐回店里给正在用餐的两位阿姨讲了一遍。当时我担心因为自己是个小屁孩，要是没人搭理我那就尴尬了，可事实证明我的担心完全多余。

走出第一家店，我长长舒了一口气，心情放松下来之后，才反应过来，我竟然忘记跟他们做自我介绍了，真糗！看到美食街上线马夹的身影快乐穿梭在每家餐饮店，我更加自信和沉着起来，走进了更多的店铺。接下来的几家店总算是惊险，但到最后一家时，却出现了“意外”——老板用不冷不热的态度应付着我，至于环保劝导海报嘛，当然是拒绝入店的。不过，我还挺庆幸的呢，如果一开始就走到那个拒绝我的店里，估计我就再也没有勇气去尝试新的挑战了。还好，运气还不错，此次“环保大战行动”遇到的都是有爱心、尊重小孩子的人。

记得今年6月5日环境保护宣传日的时候，妈妈被评为了“宝鸡市环保公益宣传使者”，带着红色的宣传袋用自己的行动，倡导广大市民爱护环境。如今，我也和妈妈一样身穿志愿者衣服，做一名少先队员力所能及的事情。以后我自己以身作则的同时，更要鼓励我的同学、朋友们，从身边的小事做起，为环境保护付诸行动。

因为，老师说过，我们每个人都是地球的孩子，所以每个人都要像爱妈妈一样，爱护我们的地球。

碳“惠”渭滨

GREEN AND LOW-CARBON HONORS SECTION

绿色低碳 荣誉篇

如今低碳行动已成为最热门的话题

在宝鸡，政府部门、社会组织、专业社工、志愿者、企事业单位.....

共同联动起来

大声呼喊着一句关乎人类可持续生计的宣言：“爱护环境、保护地球，美丽中国——我们都是行动者”。

我们用环保诗朗诵的形式把大地的话说给你听

把流水的话说给你听

愿我们能一起践行绿色低碳生活

让辽阔的大地焕发新的光彩让古老的河流吟唱新的欢歌

与此同时，受宝鸡市生态环境局、宝鸡市环境保护宣传教育信息中心邀请，宝鸡市渭滨区经二路街道新民路社区的环保社会组织、志愿者，用诗歌、用舞蹈、用原创的行为艺术、用实际行动，倡导宝鸡市民共同参与绿色生态低碳环保的行动当中来。

地球，是我们人类共同的母亲。作为她的孩子，我们每一个人都有责任和义务呵护她、关爱她。

environmental protection
